DANKERS OFFER

PLEASURE from Tried and Proven trees
and Plants.

A STIMULATED GARDEN INTEREST
through many New and Rare Varieties,
obtained during the past season.

PRESENT DAY PRICES.

A PERSONAL INTEREST in the Desires of
our many Friends and Patrons.

OUR FLOWER SHOP

CUT FLOWERS, fresh—colorful—delicate—the most perfect of gifts. Nothing so splendidly, so completely nor so **ECONOMICALLY** expresses a mood, whether of joy, affection, respect or sorrow.

**For 34 Years, From Our Shop at
40 and 42 Maiden Lane,**

we have helped hundreds and thousands of people in the Capitol District in their selections and arrangements of cut flowers and plants. An enthusiastic personnel, intensely interested in the desires of our many friends, takes real pleasure in showing the newest in flowers and plants, the latest in arrangements and uses. We are pleased to have folks come in, simply to look if they wish. We do not urge them to buy. If at some other time we can be helpful, we shall be pleased.

Come In At 40 and 42 Maiden Lane,

most conveniently located downtown. You are assured a welcome. You will always find a most complete assortment of the seasonable flowers, together with an almost bewildering array of the newer and rare plants. We shall be very happy to explain the advantages of this variety or that for any particular situation you may have in mind, or for your guidance on future occasions.

**Visit Our Greenhouses and Nurseries at
774 Central Avenue.**

Only a little over two miles from downtown, with ample parking space available and open every weekday, in their entirety, from 8 to 6 o'clock. See the best and the newest in the thousands of varieties, actually growing. Now, with "Rigid Economy" the watchword, a trip through the Danker Greenhouses will be most helpful since it will disclose many ways in which the most beautiful effects can be had through the use of the most inexpensive of flowers and plants. After visiting the Greenhouses and actually seeing the extent and completeness of our organization, you will appreciate why it is possible for us to give so much for so little at the shop at 40 and 42 Maiden Lane.

Telephone Orders.

The same careful consideration is afforded those orders which come to us over the telephone as to those which are brought in personally by our patrons. We pride ourselves in this fact and suggest the telephone to those who must have flowers immediately or who are unable to take the time to come to the shop. In view of our reputation, you may rest assured that only the freshest and the best will be used in the following out of your instructions.

Flowers in Albany or Flowers in San Francisco.

We are members of the Florists Telegraph Delivery, with its international ramifications, and can deliver flowers to almost every point in the United States or Canada, in a matter of an hour or two. Bonded and guaranteed co-operation is required of all members of this Association which means for you, full value, complete satisfaction and *no additional expense except for the cost of the telegram.*

Flowers and Danker are synonymous to thousands

ORNAMENTAL CONIFEROUS EVERGREENS

WE GLADLY furnish all information as to how to plant and care for Evergreens, Shrubs, Trees and Perennials. Always protect roots with damp material on arrival, to keep the *wind* and *sun* from reaching same. Be careful in watering, as many a plant is killed by giving too much water, especially perennials. During a dry period, give Evergreens, Shrubs and Trees a thorough soaking once a week, after planting, for four or five weeks in succession. Let nature do the rest, but do as much cultivating as possible, especially the day after rain or the watering. Do not water as long as your soil is moist. For winter protection, especially newly planted evergreens and perennials, it is advisable to use straw manure or salt hay as a ground covering after the ground freezes, the idea being to prevent frequent thawing and freezing.

In comparing prices on Evergreens, the height alone cannot definitely establish their values. Example: Two plants of the same variety may be exactly the same in height, but in width and compactness one may greatly exceed the other, and in consequence have a greater value. When making comparisons with other stock in the market, do not compare prices only. Be sure you are buying the best strains of evergreens and other plants, true to name, properly transplanted and cultivated in our nursery to insure a good root system.

ABIES. Fir

PYRAMIDAL trees of extreme hardiness, often attaining great height, thriving in almost any exposed situation. They are justly ranked among the most ornamental subjects available for the embellishment of landscape or lawn. The leaves are usually deep green, lustrous above, and silver white beneath.

concolor (*White Fir*, or *Colorado Silver Fir*). The finest of the Rocky Mountain evergreens. A majestic tree and the most dependable Fir in cultivation. Compact, graceful growth, with broad, flat, silvery bluish-green foliage. Perfectly hardy and a rapid grower. Cones 3 to 5 in. long, green or grayish green.

| | Each | | Each |
|-------------|--------|-------------------------|------------|
| 2 ft. | \$3.00 | 3 ft. | \$6.00 |
| 2½ ft. | 4.00 | 4 ft. | 3.00 |
| | | 5 to 6 ft. specimens .. | \$10.00 up |

Douglas Fir (*Pseudotsuga Douglasi*). One of the tallest and most important of our evergreen trees, and one of the most rapid growing. It is a good, live green Winter and Summer, and is unexcelled for all purposes.

| | Each | | Each |
|------------------|--------|-------------------------|--------|
| 2 to 2½ ft. | \$2.50 | 4 ft. | \$4.50 |
| 3 to 3½ ft. | 3.50 | Specimens 5 to 6 ft. .. | 7.50 |

umbilicata. Very effective Fir, very hardy, tall and slender, with glossy, medium size, dark green foliage; silvery beneath. 2½ to 3 ft. \$5.00

A WELL KEPT FOUNDATION PLANTING OF EVERGREENS

Our quality invites comparison of prices

KOSTER'S BLUE SPRUCE

JUNIPERUS. Juniper

THE Junipers form one of the most important groups of evergreens for garden and lawn planting. The upright forms make beautiful specimens, while the prostrate varieties are widely used as a ground cover. They embrace species of great hardiness and their pyramidal and columnar forms are very effective in formal gardening, giving an architectural emphasis that is often so very desirable. In our cold climate, these are about the only plants giving this "spiky" effect so much admired in Italian landscapes.

chinensis (*Chinese Juniper*). A very hardy and ornamental tree of pyramidal outline, with a pleasing grayish-green foliage, and indifferent to extremes of temperature and diversity of soil.

| Each | | Each | |
|-------|--------|-------|--------|
| 2 ft. | \$2.00 | 4 ft. | \$6.00 |
| 3 ft. | 3.50 | 5 ft. | 8.00 |

chinensis, var. columnaris (New). The best upright Juniper; very hardy. Foliage bluish-green, a good bright color during Winter.

| Each | | Each | |
|-------------|--------|-----------------------------|------------|
| 2 to 2½ ft. | \$2.50 | 6 ft. | \$10.00 |
| 3 ft. | 4.00 | 7 to 10 ft. bushy specimens | \$15.00 up |
| 4 ft. | 6.00 | | |
| 5 ft. | 7.50 | | |

chinensis Pfitzeriana (*Pfitzer's Juniper*). A splendid Juniper of broad, spreading upright growth, with dark green, plume-like branches. Very hardy and one of the most effective evergreens.

| Each | | Each | |
|---------------|--------|-------------------|------------|
| 1½ ft. spread | \$1.50 | 4 ft. spread | \$7.00 |
| 2 ft. spread | 2.50 | 5 to 6 ft. spread | \$10.00 up |
| 3 ft. spread | 5.00 | | |

communis canadensis (*Alpine Juniper*). A low-growing and spreading variety, hardy and very attractive. Silvery foliage, very showy.

| Each | | Each | |
|--------------------|--------|--------------------|--------|
| 1 to 1½ ft. spread | \$1.50 | 2 to 2½ ft. spread | \$3.00 |
| 3 to 4 ft. | \$5.00 | | |

communis hibernica (*Irish Juniper*). Very slender, columnar growth, with numerous upright branches. Very formal in outline and invaluable in Italian style gardens. Foliage bluish-green.

| Each | | Each | |
|--------|--------|-------|--------|
| 2 ft. | \$1.00 | 3 ft. | \$2.50 |
| 2½ ft. | 1.50 | 4 ft. | 3.50 |

excelsa stricta. A good variety, conical in form, with grayish green glaucous foliage. Holds its color throughout the year.

| Each | | Each | |
|-------------|--------|-------|--------|
| 1 to 1½ ft. | \$1.50 | 2 ft. | \$2.50 |
| 3 ft. | \$4.00 | | |

japonica aurea (*Golden Japanese Juniper*). A bright golden form of a spreading habit. Excellent for the rock garden.

| Each | | Each | |
|-------------|--------|-------------|--------|
| 1 to 1½ ft. | \$3.00 | 2 to 2½ ft. | \$4.50 |

Sabina (*Savin Juniper*). An upright, spreading evergreen thriving in poor soil, foliage dense, very dark green, excellent for foundation planting; small sizes suitable for rockery.

| Each | | Each | |
|-------------|--------|-------------|--------|
| 1 to 1½ ft. | \$1.50 | 2 to 2½ ft. | \$3.00 |
| 3 ft. | \$4.50 | | |

A planting of Evergreens increases the value of a home

PFITZER'S JUNIPER

JUNIPERUS—Continued

Sabina tamariscifolia (*Tamarisk-leaved Savin Juniper*). A beautiful trailing Juniper for rockwork and borders. Dark green feathery-like foliage.

| Each | Each |
|--------------------------|-------------------------|
| 1½ ft. spread.....\$1.50 | 2 ft. spread.....\$2.50 |

virginiana elegantissima Lee. A golden variegated variety of the virginiana; the foliage keeps a very attractive golden color Winter and Summer.

| Each | Each |
|-----------------|------------------|
| 3 ft.....\$7.50 | 4 ft.....\$10.00 |

virginiana cannarti (*Cannart Cedar*). An absolutely hardy tree, having deep, rich green, heavily tufted foliage. If left untrimmed, the growth is more or less open but none the less pleasing.

| Each | Each |
|------------------|--------------------------|
| 2½ ft.....\$2.50 | 5 ft.....\$ 6.50 |
| 3 ft.....3.75 | 6 ft.....8.00 |
| 4 ft.....5.00 | Specimen trees.....10.00 |

virginiana schottii (*Scholl's Juniper*). Dense and compact in growth, with pyramidal form of the red Cedar, foliage deep green. A beautiful specimen for a background for evergreen clumps.

| Each | Each |
|------------------|-----------------|
| 2½ ft.....\$2.50 | 4 ft.....\$5.00 |
| 3 ft.....3.75 | 5 ft.....6.50 |
| 6 ft.....\$8.00 | |

virginiana glauca (*Blue Virginia Cedar*). A very beautiful vigorous growing variety, with glaucous blue foliage all the year round.

| Each | Each |
|------------------|-----------------------------|
| 2½ ft.....\$2.50 | 5 ft.....\$6.50 |
| 3 ft.....3.75 | 6 ft.....8.00 |
| 4 ft.....5.00 | Specimen trees...\$10.00 up |

PICEA. Spruce

SPRUCES are unsurpassed for their ornamental qualities. They are conical or pyramidal evergreens, of great hardiness and usefulness. Splendid for park planting or as lawn specimens, and when placed among other evergreen planting, form

a most pleasing contrast. The loftiness and stately spire-like crowns of the Spruces lend a peculiar charm to the landscape. The dwarf forms are valuable subjects for bordering the taller evergreens, also suitable for rock gardens.

albertiana conica glauca. This interesting and dwarf slow growing Spruce was found in 1904 near Banff, Canada, by Professor Jack of the Arnold Arboretum; it is conical, very dense in habit and a gem for the rock garden.

| Each | Each |
|-----------------|-----------------|
| 1 ft.....\$3.00 | 2 ft.....\$5.00 |

Engelmanni (*Englemann's Spruce*). A choice and valuable Rocky Mountain tree, of dense, pyramidal growth. The young branches are pubescent and clothed with bluish-green foliage, which emits a strong, aromatic odor if bruised. Cones light brown, 2 to 3 in. long. This variety is native to the Rocky Mountains from Alberta and British Columbia to Colorado and New Mexico. Hardy in almost all parts of the country.

| Each | Each |
|-----------------------|-----------------------|
| 2½ to 3 ft.....\$3.50 | 3½ to 4 ft.....\$5.00 |
| 5 ft.....\$7.00 | |

excelsa (*Norway Spruce*). A tall and picturesque tree of many variations and the most widely cultivated of all the Spruces. As an individual tree, with room to develop, is of pyramidal symmetrical growth, its lower branches sweeping the ground.

| Each | Each |
|----------------------------------|-----------------|
| 1 to 1½ ft.....\$.50 | 3 ft.....\$2.00 |
| 2 ft.....1.00 | 4 ft.....5.00 |
| 5 to 8 ft.....\$7.50 and \$10.00 | |

JUNIPERUS EXCELSA STRICTA

Our Evergreens are root pruned frequently and transplant safely

PICEA—Continued

pungens (Colorado Spruce). A very hardy and fine tree from the Rocky Mountains. The branches are set in regular whorls which diminish in size as they near the top, forming a very symmetrical, pyramidal tree of conical outlines. Leaves glaucous green, rigid and sharp-pointed.

| Each | | Each | |
|-----------|--------|------------|--------|
| 2 ft. | \$2.00 | 4 ft. | \$6.00 |
| 3 ft. | 4.00 | 5 ft. | 7.50 |
| Specimens | | \$10.00 up | |

pungens glauca (Colorado Blue Spruce). One of the most attractive evergreens cultivated, entirely hardy; has the same good qualities as the one above but the leaves are of an elegant, glaucous blue tint. Will succeed in locations where many evergreens fail.

| Each | | Each | |
|-------------|--------|------------|---------|
| 2 to 2½ ft. | \$5.00 | 4 ft. | \$10.00 |
| 3 to 3½ ft. | 7.50 | 5 ft. | 12.50 |
| Specimens | | \$15.00 up | |

pungens glauca Kosteri (Koster's Blue Spruce). The Blue Spruce of Colorado, greatly improved. An indispensable addition to every estate. The attractive silvery blue color stands out strongly against the green of all other shrubbery and evergreen. A healthy, vigorous grower and very hardy. A handsome blue Spruce on your lawn is a good investment, increasing in value each year. This is one of our specialties of which we have a large stock in various sizes. Present day prices are very low.

| Each | | Each | |
|--------|--------|---------|---------|
| 1½ ft. | \$4.00 | 3 ft. | \$ 8.00 |
| 2 ft. | 5.00 | 4 ft. | 15.00 |
| 5 ft. | | \$20.00 | |

PINUS. The Pines

PINES are natives of lowlands and mountainous regions and withstand well the cold, bleak winds to which they are subjected. The tall growing varieties are among the most ornamental trees, both for planting as a background in landscape gardening or as single specimen. Their appearance makes them remarkably distinct characters. The dwarf forms are very valuable for landscape, rockery and hillside planting.

austriaca (Austrian Pine). A tall, massive tree, with spreading branches heavily plumed with long, stiff, dark green needles.

| Each | | Each | |
|-------|--------|-------|--------|
| 3 ft. | \$3.00 | 4 ft. | \$4.00 |

cembra (Swiss Stone Pine). A distinct, dwarf, pyramidal type, resembling somewhat the White Pine, but its needles are not so long and it is a much better lawn tree. Foliage very dark green. Makes an excellent tree, adding a touch of very attractive color to the Winter landscape.

| Each | | Each | |
|-------|--------|-------|---------|
| 3 ft. | \$7.50 | 4 ft. | \$10.00 |

mughus (Dwarf Mugho). One of the best dwarf evergreens for rocky banks, terrace slopes, small lawns, and very effective when grown at the corners of entrances, either single or in company with other evergreens. It is broader than its height and sometimes almost prostrate.

| Each | | Each | |
|--------------|--------|----------------------|--------|
| 1 ft. spread | \$1.50 | 2 ft. spread | \$3.50 |
| Specimens | | \$6.00 to \$10.00 up | |

resinosa (Red Pine).

| | | | |
|-------|--------|-------|--------|
| 3 ft. | \$3.00 | 4 ft. | \$4.00 |
|-------|--------|-------|--------|

strobus (White Pine). This Pine grows quickly and makes a most useful and beautiful ornamental tree. For specimen

HEMLOCKS ARE BEAUTIFUL AS A SCREEN OR HEDGE

groups or mass planting it is extensively used, as well as for shade and shelter belts. The needles are soft and bluish-green.

| Each | | Each | |
|------------------------------|--------|-----------------------|--------|
| 2 to 3 ft. | \$2.00 | 3½ ft. | \$3.50 |
| 4 to 5 ft. | | \$5.00 | |
| Sheared specimens 5 to 6 ft. | | \$8.00, 7 ft. \$15.00 | |

syvestris (Scotch Pine). A strong grower, with spreading branches and short, stiff, bluish-green needles.

| | | | |
|-------|--------|--------|--------|
| 3 ft. | \$3.50 | 4 ft. | \$5.00 |
| 5 ft. | | \$6.50 | |

Tanyosha (Japanese Table Pine).

| | | | |
|-------|--------|-------|--------|
| 2 ft. | \$4.00 | 3 ft. | \$7.00 |
|-------|--------|-------|--------|

RETINOSPORA. Japanese Cedar

ONE of the most beautiful and popular evergreens on account of its soft, plummy foliage and splendid habit. Particularly good for foundation plantings.

R. obtusa nana compacta (Dwarf Cypress).

8 to 10 in. \$2.00 to \$4.00

R. pisifera aurea.

| Each | | Each | |
|-------|--------|-------|--------|
| 2 ft. | \$1.50 | 4 ft. | \$5.00 |
| 3 ft. | 3.00 | 5 ft. | 7.50 |

Specimens, 6 to 10 ft., \$10.00 and up

R. pisifera (Sawara Cypress).

| | | | |
|-------|--------|-------|---------|
| 3 ft. | \$3.00 | 5 ft. | \$ 7.50 |
| 4 ft. | 5.00 | 6 ft. | 10.00 |

R. filifera. Thread-like, drooping habit.

| | | | |
|-----------------|--------|------------|--------|
| 3 ft. | \$4.50 | 4 ft. | \$7.50 |
| Bushy specimens | | \$10.00 up | |

R. plumosa.

| | | | |
|-------|--------|---------|--------|
| 2 ft. | \$1.50 | 4 ft. | \$5.00 |
| 3 ft. | 3.00 | 5 ft. | 7.50 |
| 6 ft. | | \$10.00 | |

R. plumosa aurea.

| | | | |
|-------|--------|---------|--------|
| 2 ft. | \$1.50 | 4 ft. | \$5.00 |
| 3 ft. | 3.00 | 5 ft. | 7.50 |
| 6 ft. | | \$10.00 | |

Evergreens are beautiful Summer and Winter

FOR WINTER DECORATIONS

AFTER Summer flowering plants have been killed by frost, fill your window boxes, tubs and jars with our Evergreens, grown especially for that purpose. Nursery-grown Evergreens with good roots keep their color throughout the Winter.

Norway Spruce, for tubs, jars and window boxes. .35c and up
Junipers and Arborvitae, for tubs. \$1.50 and up

Also a large assortment of other suitable evergreens for tubs and jars.

Balsam boughs and Winterberries, in season.

PINUS MUGHUS

SCIADOPITYS VERTICILLATA

(Japanese Umbrella Pine)

THE odd foliage is arranged in whorls of fifteen to thirty long, narrow needles of lustrous, deep green color. A rare tree and a gem in any collection.

| | |
|---------------------|-----------|
| | Each |
| 2½ to 3 ft. | \$7.50 up |

TAXUS. Yew

THE Yews are very desirable evergreens, they are highly effective and ornamental in bed, group or specimen planting. Their very large, blackish-green foliage makes a fine contrast with the other evergreens, they withstand clipping well, and are therefore well suited for producing formal effects.

cuspidata brevifolia (Japanese Yew). A dwarf evergreen of spreading form, eventually making a mass 10 ft. broad, and only 3 to 4 ft. high. The foliage is very dark. Altogether a handsome and most attractive plant.

| | | | |
|-----------------------|--------|------------------------|--------|
| | Each | | Each |
| 1 ft. spread. | \$2.00 | 1½ ft. spread. | \$3.00 |
| 2 ft. spread. | \$5.00 | | |

cuspidata. A handsome, spreading Yew which is hardy in any situation.

| | | | |
|------------------------|--------|------------------------|--------|
| | Each | | Each |
| 1 ft. spread. | \$1.50 | 2 ft. spread. | \$4.00 |
| 1½ ft. spread. | 2.50 | 2½ ft. spread. | 6.00 |
| 3 ft. spread. | \$7.50 | | |

cuspidata capitata. Much like the foregoing, but instead of being bush-like, carries a center leader. Perfectly hardy and should be found in every evergreen planting.

| | | | |
|----------------|--------|---------------|--------|
| | Each | | Each |
| 1 ft. | \$2.00 | 2 ft. | \$4.00 |
| 1½ ft. | 3.00 | 3 ft. | 6.00 |

THUJA. Arborvitae

A GROUP of useful, hardy evergreens of varied forms: especially desirable for formal gardening as they can easily be clipped to any shape and for this reason are almost indispensable. Their clean, neat, compact appearance makes them useful in grouping, bedding, bordering and formal gardening, for cemetery and lawn specimens, for hedges, screens, window boxes, vases and house decorations.

Douglasi spiralis. A very distinctive form resembling somewhat the well known pyramidalis. Could be used to good advantage in formal plantings.

| | | | |
|---------------|--------|---------------|--------|
| | Each | | Each |
| 2 ft. | \$3.00 | 3 ft. | \$5.00 |
| 4 ft. | \$7.50 | | |

occidentalis (Common American Arborvitae). The well-known screen and hedge plant. Grows naturally to a tree 40 ft. tall, but can be kept down to any size by shearing.

| | | | |
|---------------|--------|-------------------------|-----------|
| 2 ft. | \$1.00 | 5 ft. | \$4.50 |
| 3 ft. | 1.50 | 6 ft. | 6.00 |
| 4 ft. | 3.00 | 7 ft. and over. | \$8.00 up |

Special price on quantity for hedging

occidentalis globosa. Round form. Much used for window boxes and low plantings.

| | | | |
|----------------------|--------|---------------|--------|
| 12 to 15 in. | \$1.00 | 2 ft. | \$2.50 |
| 3 ft. | \$5.00 | | |

occidentalis lutea (Golden Arborvitae). Growth much like the *occidentalis*. Foliage is of an attractive yellow hue.

| | | | |
|---------------|--------|---------------|--------|
| 2 ft. | \$2.00 | 3 ft. | \$4.50 |
|---------------|--------|---------------|--------|

occidentalis pyramidalis. The hardiest of the pyramidal Arborvitae and should be used extensively. The best variety for formal plantings.

| | | | |
|---------------|--------|---------------|--------|
| 2 ft. | \$1.50 | 4 ft. | \$4.00 |
| 3 ft. | 2.50 | 5 ft. | 6.50 |
| 6 ft. | \$7.00 | | |

occidentalis sibirica. Grows very compact and low, much like a dwarf. The foliage is of a dark rich green. Very hardy and is one of the best evergreens for entrances and grouping.

| | | | |
|---------------|--------|----------------|--------|
| 1 ft. | \$1.00 | 2½ ft. | \$3.00 |
| 2 ft. | 2.00 | 3 ft. | 5.00 |

TAXUS CUSPIDATA CAPITATA

Plant more Taxus; they are the aristocrats of the Evergreen family

THUJA PYRAMIDALIS

THUJA—Continued

Rosenthali (*Thuja pyramidalis Rosenthali*). One of the newer varieties of pyramidal form. This evergreen grows more compact than other Thujas and the leaves are darker green. A beautiful and graceful tree.

| | Each | | Each |
|-------|--------|--------|--------|
| 2 ft. | \$3.00 | 2½ ft. | \$4.50 |

TSUGA. Hemlock Spruce

canadensis. One of the evergreens for planting in shady places and where it will find a little protection. Prefers moist soil, and grows rapidly after it gets established. A graceful tree, with loose, open growth, and Yew-like foliage. It is kept in dense form by pruning in our nursery.

| | Each | | Each |
|-------|--------|-------|--------|
| 2 ft. | \$2.00 | 4 ft. | \$6.00 |
| 3 ft. | 4.00 | 5 ft. | 7.50 |

Tsuga caroliniana (Carolina Hemlock)

WITH dark, dense, tufted foliage on pendulous branches, makes a very beautiful specimen.

4 ft. \$6.00 each

HYBRID RHODODENDRONS

THE most handsome and effective of the broadleaved evergreens. These beautiful flowering evergreen shrubs bearing great clusters of blooms, appeal to everyone. They can be grown with great success in this climate by planting them in sheltered positions and supplying a liberal amount of leafmold or peat to assure the necessary acid condition of soil. Directions for the planting and care of Rhododendrons and Azaleas will be gladly supplied.

Album Elegans. White.

America. Dark red.

Everestianum. Rosy-pink.

Mrs. C. S. Sargent. Deep rose.

President Lincoln. Lavender-pink.

Roseum Elegans. Rosy-purple.

3 to 4 year plants, \$4.00 each

OUTSTANDING NATIVE RHODODENDRONS

Rhododendron catawbiense. Rosy-lavender.

Rhododendron carolinianum. Lavender-pink.

Strong heavy clumps \$3.50 to \$5.00 each

Kalmia latifolia. Mountain Laurel.

Extra heavy clumps, \$1.50 to \$5.00 each

DAPHNE CNEORUM (Garland Flower)

ONE of the choicest garden and rockery plants grown; sweet scented, pink flowers.

Strong plants . . . \$1.00, \$1.50, \$2.00, \$3.00 according to size

PACHYSANDRA TERMINALIS

(*Japanese Spurge*). An indispensable evergreen ground cover for shady locations. Grows 6 to 8 inches high. 20c each \$1.50 per doz., \$10.00 per 100.

RHODODENDRON CATAWBIENSE

Hemlocks are suitable for shady locations

AMPELOPSIS VEITCHI

NURSERY DEPARTMENT

PEOPLE come to Danker's and then come again and again because they find honest values, thrifty material—satisfaction. In our recommendations, only those varieties adaptable to our particular climatic conditions are suggested. We are growing only such stock as has been proven practical in this locality. It is growing under ideal conditions both as to soil conditions and supervision. Frequent transplantings are effected to insure good root systems. This constant inspection and care means vigorous plants, free from destructive diseases and insects, which will give you years of increasing pleasure.

Consider your grounds, in the same way that you consider your living room. They should be attractive and harmonious and most of all, comfortable. We will be very glad to talk to you about them or we will submit complete plans for beautifying your home. Visit our nurseries where you can see the splendid quality of the material we are growing. If this is not convenient then a letter or a telephone call (Albany 2-4435) will bring one of our representatives to your assistance.

HARDY CLIMBING VINES

AMERICAN BITTERSWEET (*Celastrus scandens*)

A native vine having a dense growth, much prized for its orange scarlet berries which are extensively used for decorating.

75c each, \$7.50 per doz. Larger Vines, 3 yrs., \$1.00 each, \$10.00 per doz.

AMPELOPSIS VEITCHI (*Boston or Japan Ivy*)

The most popular and desirable climbing plant for covering brick, stone, or wooden walls, trees, etc.

The foliage is of a rich olive green during the Summer, changing to various shades of bright crimson and scarlet in the Fall. 2 yr., 50c each, \$5.00 per doz.

Ampelopsis quinquefolia (*Virginia Creeper, or American Ivy*)

This well known Climber is one of the best and quickest growing varieties for covering trees, trellises, arbors, etc.; its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the Fall.

1 yr., 25c each, \$2.50 per doz. Extra strong, 2 yr. plants, 50c each.

ARISTOLOCHIA SIPHO (*Dutchmans-pipe Vine*)

A vigorous and rapid growing climber, bearing singular brownish colored flowers, resembling in shape a pipe. Its flowers, however, are of little value compared to its fine, light green leaves which are of very large size and retain their color from early Spring to late Fall; perfectly hardy. Extra strong plants, \$1.00 and \$1.50.

CLEMATIS

As a climber for the veranda, garden walls, fences or arbors, it has no rival among the strong growing blossoming vines. The Clematis should be grown in rich, deep sandy loam and well mulched for the Winter.

| | |
|---|-------------|
| Paniculata. Pure white and fragrant | Each \$0.50 |
| Jackmani. The popular purple variety | .75 |
| Henryi. Large creamy white | .75 |

BIGNONIA

Trumpet creeper (*B. radicans*). Vigorous, rapid growing vine having large, orange scarlet, tubular flowers in July and August. \$0.50

CLEMATIS PANICULATA

| 3 in. pots. | \$0.25 |
| 4 in. pots. | .50 |
| 5 and 6 in. pots. | .75c to 1.00 |

EUONYMUS RADICANS VEGETA (*Evergreen Bittersweet*)

Suitable for covering low stone walls to take the place of English Ivy in the north; very hardy, with fruit similar to Bittersweet berries. Strong, 3 and 4 year vines, 50c to \$1.50.

LONICERA (*Honeysuckle*)

Halliana, 2 year. \$0.50
Scarlet Trumpet. Glaucous green leaves and long scarlet flowers. Beautiful and very hardy. 50c each, \$5.00 doz.

LYCIUM CHINENSE (*Matrimony-vine*)

A graceful, shrublike vine with small lavender flowers followed by red berries; especially good for planting on banks and terraces. 50c each, \$5.00 per doz.

POLYGONUM AUBERTI (*Silver Lace Vine*)

Producing through the summer and fall, great foamy sprays of white flowers. Strong plants 50c each.

VINCA MINOR (*Periwinkle, or Trailing Myrtle*)

Useful for covering graves, or growing in shady places under trees.
 4 in. pots. \$0.25 \$2.50
 5 in. pots.35 3.00

WISTERIA

Our Wisteria are grown from grafts taken from blooming vines, and can be depended on to produce plenty of flowers.

Purple. One of the best hardy climbers, producing their great trusses of flowers in abundance during the month of May.

They should be liberally fed when first planted to give them a vigorous start. \$1.00
 Larger Vines. \$1.50, \$2.00, \$3.00, 5.00

Our climbing vines and pot grown extra strong plants which will become established quickly

DECIDUOUS TREES

WHETHER for beautifying your country estate, screening some objectionable object, for shade in your dooryard, for wind-breaks, for real estate investment, or for the sake of others, plant trees. We carry a large assortment of deciduous trees, especially suitable for Albany or vicinity, street and ornamental planting. All our trees are finely shaped, well rooted, and have been transplanted one or more times. With our modern tree moving equipment we are now able to furnish and plant trees up to 12-inch caliper of trunk, and evergreens 15-18 feet tall with a good ball of roots and earth. We will gladly quote you prices on the moving of trees on your own grounds.

MAGNOLIA SOULANGEANA

ACER SCHWEDLERI

Price of large specimens of shade trees on application

Big trees can now be moved easily and quickly with safety, with our new automotive tree moving equipment

IT IS no longer necessary to wait for small trees to grow, in order to produce the desired effect or shade. We have added to our equipment a Tree Moving Machine, (illustrated) for the handling of large and heavy trees. If you are interested in changing large trees up to 12 inch caliber on your property to more desirable and effective locations, or if you desire to purchase such trees, for the purpose of adding beauty and impressiveness to your premises, we are now fully equipped to do this work reasonably for you with comparative safety and little check in growth.

We will be pleased to offer suggestions, and estimates, on this new and economical method of handling large trees, or specimen evergreens.

We can refer you to many satisfied customers

FRUIT DEPARTMENT

We have large, bearing size fruit trees in the nursery for those who wish immediate results. These are priced from \$2.00 upward.

WE ARE prepared to plan and lay out fruit gardens, making selections of varieties and number of plants necessary for a supply of fresh fruit for family use, and give special prices. Place your orders for fruit trees early.

CRAB APPLE

Hyslop. Large, deep crimson; very popular. October.

SUMMER APPLES

Red Astrachan. Large, nearly covered with deep crimson; juicy and tart.

Yellow Transparent. Pale yellow when ripe; flesh tender, juicy, sub-acid; a free grower and early bearer.

AUTUMN APPLES

Duchess. Skin yellow streaked with red. Flesh juicy and good. Strong grower and abundant bearer.

Fall Pippin. Large, roundish oblong; yellow; flesh tender, rich and delicious. October to December.

Wealthy. Medium deep red, juicy, fine quality, productive. October.

WINTER APPLES

Baldwin. Large, bright red, crisp, juicy and rich; very productive.

Delicious. Large, bright red, highest quality.

Northern Spy. Pale yellow, striped with red, good keeper, excellent flavor; grows best in cold climates.

McIntosh. Early Winter Apple. One of the best and most beautiful dessert Apples.

Trees, 75c each, \$7.50 per doz.

CHERRIES

Black Tartarian. Sweet, very large, bright purplish black, tender, juicy, and of rich flavor.

Montmorency. Large, red, very productive, best for preserving. Early July.

Schmidt's Bigarreau. Sweet, large, dark red fruit, strong grower.

Yellow Spanish. Late June. Yellow with red cheek; firm, juicy and delicious. The most popular of all light colored Cherries.

Trees, 75c each, \$7.50 per doz.

PEARS

Bartlett. Summer Pear. Buttery, very juicy and high flavored; bears early and abundantly. September.

Beurre d'Anjou. Large, handsome, greenish yellow flushed with crimson.

Clapp's Favorite. Summer Pear. Very large, yellowish and melting; flushed red on sunny side. September.

Flemish Beauty. Fall Pear. Large, sweet and good. Grown largely throughout the North.

Worden Seckel. An improved Seckel golden yellow, bright crimson cheek.

Seckel. Autumn Pear. Small yellowish brown; flesh very fine grained, sweet, exceedingly juicy, buttery.

Trees, 75c each, \$7.50 per doz.

Large bearing size fruit trees, 4 yr. old trees, \$2.00 and up.

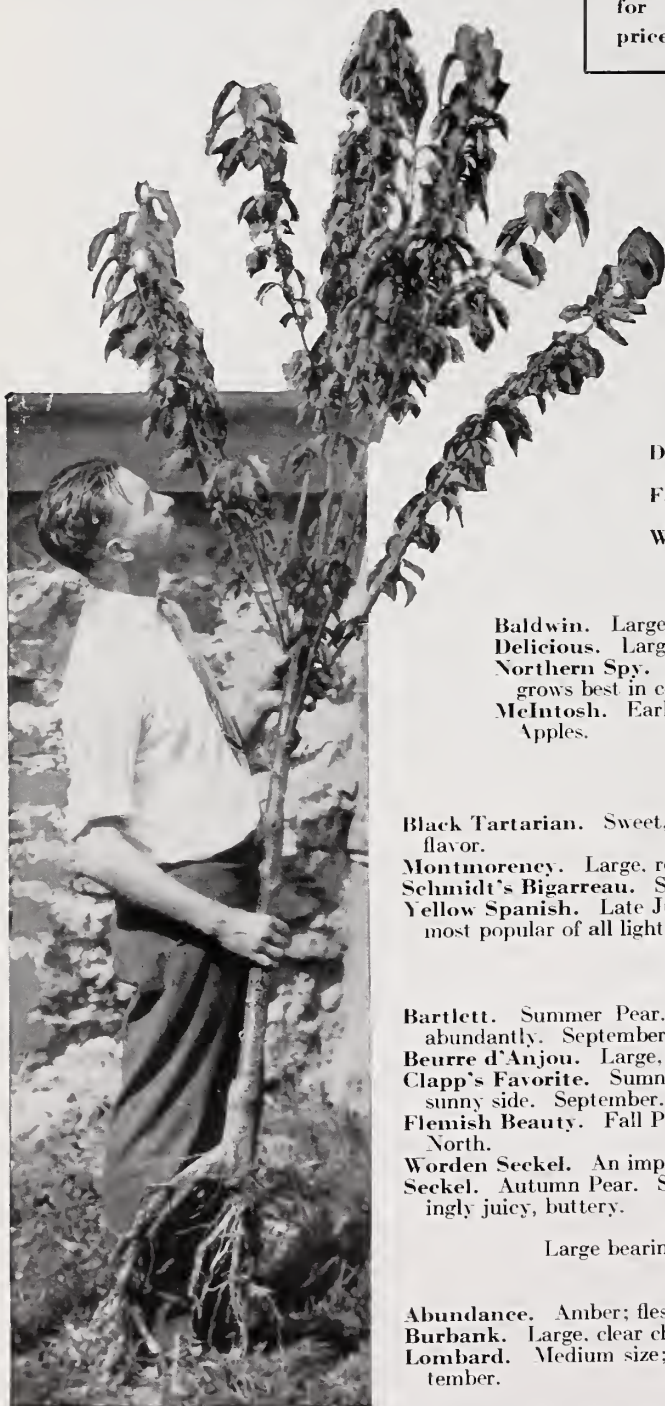

PLUMS

Abundance. Amber; flesh yellow; juicy, tender, sweet; productive. September.

Burbank. Large, clear cherry red; an abundant bearer. September.

Lombard. Medium size; oval, violet red, flesh yellow; vigorous, great bearer. September.

Trees, 75c each, \$7.50 per doz.

Visit our nurseries and make your own selections

QUINCE

The Quince crop is usually reliable and not often destroyed by capricious weather variations. Very much desired for preserves, jellies and canning. Fruits quite fragrant and the trees and bloom highly ornamental. Each 75c, doz. \$7.50.

PEACHES

Hale, J. H. (New Yellow). Fruit large, globular. Flesh deep yellow, fine-grained, firm, tender and flavor delicious.
Crawford's Early. Fruit large, oblong; skin yellow, red cheek; flesh deep yellow, juicy.
Elberta. Large yellow with red cheek, flesh yellow and of delicious flavor.
Rochester. Greatest early Freestone long-keeping, yellow Peach. Good shipper. Very hardy, quality superior.
 Trees, 50c each, \$5.00 per doz.

GRAPES

Agawam. Dark red or maroon; bunches compact, very large; berries large, flavor sweet and aromatic. Ripens early. One of the best of the red varieties.
Caco (Catawba Concord). Perfectly hardy. Equals the finest hothouse product in quality; large, red berries; ripens before Concord. 2 yr. vine. 50c each, \$5.00 doz.
Concord. Black and handsome large Grapes; a very hardy, reliable and productive variety, succeeding everywhere.
Hubbard. A superb new Grape for table use; rich blue bunch and berry large and uniform; seeds few and small healthy

foliage and strong grower. Ripens 10 days before Concord 50c each, \$5.00 doz.

Niagara. White. Vine hardy and strong grower; bunches very large and compact, many weighing 14 ounces, sometimes more; berries large, skin thin but tough. The most popular white Grape.

Grapes, 2- and 3-years, 25c each, \$2.50 doz., except where noted.

RASPBERRIES

Columbian. Purple. A very vigorous grower and very hardy. Delicious for table or canning.

Cumberland. Black. The bush is hardy, a vigorous grower and exceptionally productive. Fruit of uniform size and larger than any known black Raspberry.

Latham. A new red Raspberry that has proved to be the best in competition with all others.

St. Regis. Red. Raspberries for four months. An ever-bearing variety. Raspberries of the very highest grade, brilliant crimson, firm. This has been aptly termed the "early-till-late" variety, for it is the first red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October.

75c doz., \$5.00 per 100, except where noted

BLACKBERRIES

Snyder Blackberries.

75c doz., \$5.00 per 100

USE CULTIVATED HYPER HUMUS

Dark patch is the odorless humus, all ready to be raked into the grass out of sight. For lawns it is a wonder worker.

Dig it around your shrubs. It quickens their vitality and multiplies their bloom.

The Ideal Soil Enricher for Lawn and Garden

Here at last is a perfectly balanced soil ration that unfailingly produces both immediate and long enduring fertility. No odor. A small percentage of weed seeds. No contagious disease germs. This cannot be said of unsterilized manures.

It gives the proper tilth to the soil. It loosens up compact ones and binds together loose ones. Defying dry weather, it acts as a soil moistening sponge. Prevents soluble plant foods from leaching away before benefitting the roots.

Cultivated Hyper-Humus is prepared by turning under green cover crops such as Soy Beans and Hairy Vetch, the same as the farmer prepares his soil. No other commercial humus is prepared like this. No plant or shrub flourishes and blooms at its best, except in a congenial soil.

It is also liberally inoculated with bacteria for the legumes, such as Alfalfa, Clovers, Peas, Beans and the like.

Humus is cheap to buy, easy to use, gives quick results the first season, and continues its benefits the next.

It is slightly acid, dry and finely granulated.

Don't confuse it with the unprepared, often sour, water-logged humus sold under various names.

PRICES—DELIVERED TO YOUR DOOR

Our assorted Gladiolus bulbs are made up of named varieties only. All Gladiolus bulbs will be large blooming size, producing one and two spikes.

Gladiolus are one of the most satisfactory garden flowers to grow. No other flower gives so much for so little effort. Gladiolus hold an ever increasing interest, not only for their rainbow splendor, but also for their long lasting qualities as cut flowers.

LONGFELLOW

Plant Gladiolus Bulbs every ten days up to July 1st for a succession of cut blooms

BEST HARDY GARDEN ROSES

WHILE our old customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are field-grown plants, having been cultivated in fields during the growing seasons of 1930 and 1931. In Fall they were carefully dug, planted in pots and stored in cold storehouses, where artificial heat is only used to exclude severe frost and are then moved into frames outdoors in early Spring and gradually exposed to the weather. Under this treatment the plants develop in the most natural way and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth, and to comparatively worthless Roses which are sold so cheaply in a dormant condition.

SELECT NEW HYBRID TEA ROSES—OFFERINGS OF THE WORLD'S BEST HYBRIDISTS

OLYMPIAD

Betty Sutor. (M. C. McGredy & Sons, 1929). Exquisite pink tones both in the long bud and high-centered, large, double tea-scented flower. Strong, vigorous and free-flowering. Each \$1.50.

Caledonia. Large, long, pointed bud, full, double high center, long strong stems; color, slightly lemon tinted changing to pure white as flower develops, dark green foliage; free bloomer. Each \$1.00.

Charles P. Kilham. The buds are long pointed, of perfect shape, opening to high centered, perfectly formed full double flowers of a rich and brilliant oriental red, flushed with orange and glowing scarlet. Each \$1.00.

E. G. Hill. Long bud of perfect form, as well as high centered, full double; color, dazzling scarlet changing to a deeper red when fully developed. Vigorous, free blooming. Each \$1.00.

Golden Dawn. A Rose of Australian origin reminding one of the old favorite Marechal Neil, and which was suggestive of the name Golden Dawn. Color light lemon yellow. Each \$1.00.

Heinrich Wendland. (W. Kordes Sons, 1930). Buds large, long pointed, very double, high centered of unfading nasturtium red. Intensely fragrant flower. Reverse of petals a deep golden-yellow. Vigorous grower. Each \$1.50.

Lady Margaret Stewart. A Rose of unique and distinct color. The flowers in the young stage are a deep, sunflower yellow, heavily veined and splashed with orange scarlet, with the reverse of petals deeply suffused with carmine; long-pointed buds. Delightfully sweet-scented. Each 75c.

Lucie Marie. (Alex. Dickenson & Sons, 1930). Very long pointed buds, deep yellow, splashed rosy-red. Strong, vigorous, healthy habit of growth with dark leathery foliage. A most distinct bedding variety. Each \$1.00.

President Hoover. A glorious Rose, wonderfully free flowering and charming in its color arrangement which is a splendid combination of cerise pink, flame scarlet and yellow; truly a dazzling Rose, long buds, very fragrant. Each \$1.00.

Rev. F. Page-Roberts. A most beautifully shaped bud, long and full double flowers of a rich orange gold, shading to saffron yellow. Growth vigorous and very free flowering. The most beautiful Rose of its color yet introduced; very fragrant. Each \$1.00.

Wilhelm Kordes. Unique and entirely distinct in coloring. A rich, capucine red with coppery suffusion overlying a golden-salmon ground. Buds long and pointed with high centered very fragrant flowers. Each \$1.00.

PRESIDENT HERBERT HOOVER

See list of our special \$7.50 collection of 12 popular varieties, including the new Olympiad

SELECT NEW HYBRID TEA ROSES—Continued

ETOILE DE HOLLANDE

Talisman. This American Rose when offered for the first time for garden planting, created a sensation at all the shows where it was exhibited and won gold medals wherever shown, including the President Coolidge Medal. In color it is a combination of gold apricot yellow and deep pink changing to old rose, and unlike most Roses, the color becomes brighter as the flower develops. Vigorous grower, glossy green foliage and free flowering. Each 75c.

Ville de Paris (City of Paris). Rich, buttercup yellow, retaining its color under all weather conditions; habit upright and tall; a profuse bloomer. Each \$1.00.

Olympiad (Mme. Raymond Gaudard). Words cannot describe the brilliancy of the coloring and the beautiful formation of its buds and flowers. We refer you to the illustration which gives a fair representation of its beauty. The plant is a strong, vigorous grower, free and perpetual flowering. Strong, 2-yr.-old plants. Each \$1.00. (Included in our special \$7.50 collection of 12 popular varieties).

Golden Moss (New). Hybrid Moss Yellow. An entirely new yellow Moss Rose. The first one ever produced. Open flowers rich golden-buff with pinkish tint. Very fragrant and heavily mossed. Each \$2.50.

HYBRID TEA ROSES

The following varieties bloom all Summer

Most of these plants are budded or grafted, and while some planters prefer stock grown on their own roots, on account of the liability of budded plants to throw up suckers, this will rarely occur if deep planting is practiced, and if a wild shoot should appear, it should be removed close to the root. Much can be said in favor of budded plants, being more vigorous, producing finer blooms, coming into bearing sooner, and just as permanent and hardy as those on their own roots.

Betty. Coppery rose, particularly free flowering in Autumn.

Caroline Testout. Bright satiny rose; very free and fragrant.

Columbia (E. G. Hill, 1918). Fine pink, very double and grown by hundreds of thousands for market.

Constance (Pernet-Ducher, 1915). A free flowering variety, producing beautiful, long, orange yellow buds.

Dame Edith Helen. Brilliant soft pink, strong, vigorous constitution. Large flowers. Very fragrant.

Double White Killarney. Pure white.

Duchess of Athol. Unusual color, an old golden orange, flushed with peach pink; profuse bloomer. \$1.00 each; \$10.00 doz.; \$80.00 per 100.

Duchess of Wellington. Intense saffron yellow, stained with deep crimson; very fragrant.

Edel. Enormous, well built white flower with faintest ivory white at base; very free flowering; delightfully scented. The best white Rose.

Etoile de Hollande. A brilliant crimson red, the best all-around red bedding Rose yet introduced. Strong, vigorous, healthy grower; free, continuous bloomer; flowers large.

Feu Joseph Looymans. Distinct in color and formation; long buds, yellow, with apricot at the center; spicy fragrance.

Francis Scott Key. Large, double flowers of unusual substance. Considered the highest grade florist red Rose today.

Gruss an Teplitz. This is the reddest of all the red Roses. Strong grower.

Hadley. Deep velvety crimson; intensely fragrant.

Jonkheer J. L. Moek. Silvery pink; highly perfumed.

Kaiserin Auguste Victoria. Soft, pearly white.

MRS. AARON WARD

All varieties listed on this page, except as noted, are 75c each; \$7.50 doz.; \$60.00 per 100

SOUVENIR DE CLAUDIUS PERNET

HYBRID TEA ROSES—Continued

- Killarney (Pink).** One of the most popular of garden pink Roses; the blooms are large, the petals of great substance.
- Lady Alice Stanley.** Deep coral rose; inside pale flesh. One of the best bedding varieties.
- Los Angeles (Howard & Smith, 1917).** This is by far one of the finest Roses ever introduced; flame pink toned with coral; fragrance equal to Marechal Niel; will be as popular as the Jack Rose. Stock limited this year. \$1.00 each; \$10.00 doz.; \$80.00 per 100.
- Mme. Butterfly.** Blush pink, suffused apricot and gold, of good texture and fragrance.
- Mme. Edouard Herriot (The Daily Mail Rose).** Coral red, shaded yellow at base; open flowers of medium size; semi-double, rosy scarlet passing to shrimp pink.
- Mrs. Aaron Ward.** Indian yellow; very free and fragrant; a great favorite blooms all Summer.
- Margaret McGredy.** Large, brilliant, oriental red, passing to carmine rose. Long lasting, free flowering, spicy fragrance.
- Miss Rowena Thom.** Large, shapely buds of a brilliant rose pink, golden glow at base, equal to Radiance in blooming qualities.
- Mrs. A. R. Waddell.** Rose salmon; a good garden variety. \$1.00 each; \$10.00 doz.; \$80.00 per 100.
- Mrs. Erskine Pembroke Thom.** Proved by test to be the best yellow garden variety; long, shapely buds, particularly good in Fall.
- Mrs. Henry Morse.** A most perfect form; bright rose; the largest and most pointed of all Roses.
- Mrs. Lovell Swisher.** Deep coppery salmon, long buds, tea scented.
- Mrs. Redford.** Bright apricot orange, upright growth, perfect form; fine bedding Rose. \$1.00 each; \$10.00 doz.; \$80.00 per 100.
- Mrs. W. C. Miller.** Bright pink and perpetual flowering; none better as a bedder.
- Ophelia.** Delicate shade of salmon flesh, shaded with rose; long, pointed bud. Very free flowering.
- Padre.** Long petals of a coppery scarlet flushed yellow at base.

Radiance. An ideal bedding variety of remarkably free flowering habit; of a brilliant carmine pink with yellow shadings at base of petals.

Red Radiance. Same ideal habit as Radiance only in color.

Rose Marie (Dorner, 1918). Clear rose pink; claimed to be the very best bedding Rose of its color. 75c each; \$7.50 doz.; \$60.00 per 100.

John Russell (Dobbie & Co.). A beautiful long bud and one of the most handsome of red roses. Awarded Gold Medal by the Royal Horticultural Society of England. 75c each.

Sir David Davis. This variety has proved to be one of the best bedding Roses; non-fading, deep glowing crimson.

Souvenir de Claudius Pernet. Color striking sunflower yellow without any color blending; does not fade in warm weather.

Souvenir de H. A. Verschuren. A Holland Rose. Apricot yellow shading to saffron yellow.

Souvenir de Georges Pernet. Oriental red, suffused with a golden sheen.

Willowmere. Coral red color suffused with carmine in the bud state; long bud, shaded yellow in center.

HYBRID TEA ROSES Special Dozen Collection

\$7.50

Caledonia. Best white.

Hadley. Fine red.

Los Angeles. Salmon pink, and yellow.

Mme. Butterfly. Flesh pink.

Mme. Edouard Herriot. Coral.

Mrs. Aaron Ward. Indian yellow.

Olympiad. New (*Mme. Raymond Gaugard*).

Padre. Coppery scarlet, flushed yellow.

Radiance. Pink.

Red Radiance. Same habit as Radiance.

Souvenir de Claudius Pernet. Yellow.

Talisman. Tangerine yellow.

DAME EDITH HELEN

*Danker's Special Dozen Hybrid Tea Roses is composed of the very best
Roses in cultivation, \$7.50 per dozen including Olympiad*

All varieties listed on this page, except as noted, are 75c each; \$7.50 doz.; \$60.00 per 100

HADLEY

HYBRID PERPETUAL ROSES

Anna de Diesbach. Clear, bright carmine-rose; fragrant, free and continuous. Large and finely shaped.

Captain Hayward. Bright, crimson carmine.

Frau Karl Druschki. This is the ideal hardy white Rose.

George Ahrends. A beautiful pink, sweetly scented variety.

General Jacqueminot. Brilliant scarlet crimson. Does well anywhere.

Gloire de C. Guinoisseau. Large, full globular flowers of vermillion red shaded deeper red, on vigorous plants.

Harrison's Yellow. The old-fashioned yellow Rose of grandmother's garden.

Mme. Albert Baibier. A new Hybrid Perpetual Rose. Habit of flowering as free as many of the popular Hybrid Tea Roses. A seedling of Frau Karl Druschki; long buds of pearly white colored flowers with golden suffused center.

Magna Charta. Bright pink.

Write us regarding your favorite Roses if not listed in this catalogue. No doubt we have them. Please remember our stock is not mailing size but large, strong, two- and three-year stock that will produce large quantities of flowers the first year.

Mrs. John Laing. Soft pink, beautifully formed buds.

Mrs. R. G. S. Crawford. Deep rosy pink, outer petals shaded with flesh; one of the freest bloomers and a splendid Rose in every respect.

Paul Neyron. Dark rose; enormous size.

Ulrich Brunner. Bright cherry-red.

Rosa Xanthina (New). Bright yellow, double flowers, really a double flowering Hugonis, with better foliage and lasts in flower for a much longer period. \$1.00 each.

Rosa Hugonis. A new Rose from China; its delicate yellow flowers are produced on long, arching sprays early in May. Suitable for planting among shrubbery. 2-year plants.

Rosa Moyesi. A strikingly beautiful species similar in growth to Rosa Hugonis, but growing from 6 to 10 ft. high. Brilliant, single, deep blood red. Flowers in June. \$1.00 each.

All strong, pot stock, with several strong shoots. Our Roses will bloom this season.

25 of all \$8.75 varieties at 100 rate, \$15.00

TALISMAN

All varieties listed on this page, except as noted, are 75c each; \$7.50 doz.; \$60.00 per 100

All our Roses are two-year-old, extra strong, and will produce quantities of Roses during the first season

RUGOSA ROSES

Rosa rugosa. White, 75c each; \$60.00 per 100.

Rosa rugosa. Pink, 75c each; \$60.00 per 100.

F. J. Grootendorst. Red. A cross between Red Baby Rambler and Rugosa. Continuous and a bush Rose. Hardy and strong enough to be planted among shrubbery. 75c each; \$7.50 doz.; \$60.00 per 100.

Pink Grootendorst. Identical with the above except in color which is a splendid clear pink. 75c each; \$7.50 doz.; \$60.00 per 100.

MOSS ROSE

Old Fashioned Pink, 75c each; \$60.00 per 100.

Our Roses are potted and showing growth before sending out. We cannot replace Roses that die after leaving our nursery.

RADIANCE

LOS ANGELES

Baby Rambler and Polyantha Roses

A TYPE of Rose which is very popular for bedding purposes. They form shapely, compact, bushy specimens about 18 inches high, producing in great profusion from early in the season until severe frost, immense trusses of small flowers.

Polyantha Roses, \$60.00 per 100; 25 at 100 rate except where noted

| | | |
|---|--------|--------|
| Cecile Brunner (<i>The Fairy or Sweetheart Rose</i>). A Polyanthus variety with dainty double little flowers of perfect form, produced in many flowered, graceful sprays. Color a soft rosy pink on a creamy white ground. | Each | Doz. |
| | \$0.50 | \$5.00 |

| | | |
|--|-----|------|
| Crimson Baby Rambler, Triomphe Orleanais. Crimson flowers similar to the popular Crimson Rambler. | .75 | 7.50 |
|--|-----|------|

| | | |
|--|-----|------|
| Ellen Poulsen. A very fine, brilliant pink; large, full sweet scented; vigorous habit and most floriferous. | .75 | 7.50 |
|--|-----|------|

| | | |
|---|-----|------|
| Gloria Mundi. Most brilliant orange-scarlet. Does not fade. Flowers well formed, full double. Very free. | .75 | 7.50 |
|---|-----|------|

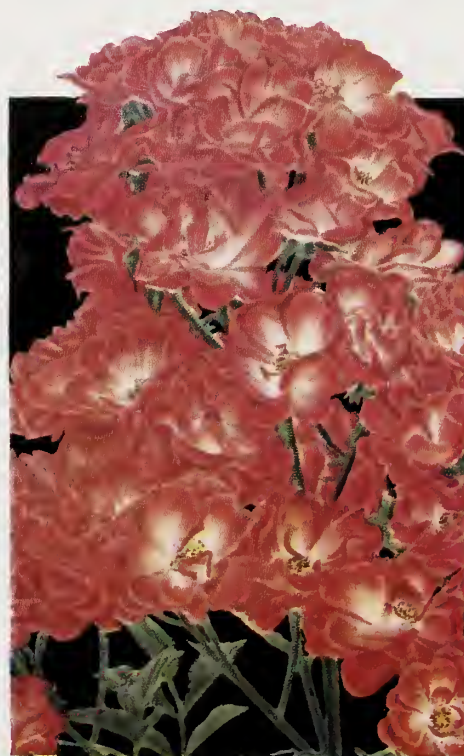

| | | |
|---|-----|------|
| Golden Salmon. An entirely new shade in the Polyantha Roses; of a golden orange color. | .75 | 7.50 |
|---|-----|------|

| | | |
|---|-----|------|
| Lady Reading. Red flowers; same habit and growth as Ellen Poulsen. | .75 | 7.50 |
|---|-----|------|

| | | |
|---|-----|------|

|---|-----|------|

| | | |
|--|-----|------|
| Pink Lafayette. A lively rose-pink, otherwise identical to the favorite Lafayette from which it originated. | .75 | 7.50 |
|--|-----|------|

| | | |
|---|-----|------|
| Orleans. Geranium red flowers, tinted pink, with creamy white centers; a gold medal Polyantha and ideal for massing. | .75 | 7.50 |
|---|-----|------|

GOLDEN SALMON—A New Polyantha Rose

A bed of these Roses will bloom the first season and all Summer

General Collection of Hardy Climbing Roses

ALL the following Roses are No. 1, extra select, with strong, healthy canes, potted and showing sprouts and new growths and are not to be compared with small grades in dormant condition.

| | Each | Doz. | 100 |
|---|--------|--------|---------|
| American Pillar. A single pink variety of great beauty..... | \$0.75 | \$6.00 | \$50.00 |
| Roserie (Red Tausendschoen). With same habit of growth as Tausendschoen, but a deeper and more even shade of cerise pink or carmine.... | .75 | 7.50 | 60.00 |
| Climbing American Beauty. Strong grower and a climbing Rose of great beauty. One of the earliest to bloom and very hardy. A Rose of great merit..... | .75 | 6.00 | 50.00 |
| Dorothy Perkins. Soft shell pink..... | .75 | 6.00 | 50.00 |
| Dr. Van Fleet. Buds long and pointed, of a beautiful flesh pink color. Dark, glossy foliage. Splendid for cutting..... | .75 | 6.00 | 50.00 |
| Excelsa. Crimson maroon. Has Wichuraiana foliage and does not mildew. The best red climber to date..... | .75 | 6.00 | 50.00 |
| Hiawatha. Single ruby carmine..... | .75 | 6.00 | 50.00 |
| Mary Wallace. A new pink of the large flowering type, a seedling of Dr. Van Fleet, one of the world's greatest rosarians..... | .75 | 6.00 | 50.00 |

BLAZE—New Climbing Rose

THE new, hardy, everblooming scarlet climber. Awarded United States Plant Patent No. 10. A marvelous new hardy climbing rose which inherits the blazing color of the well known Paul's Scarlet Climber and the everblooming habit of Gruss an Teplitz, thus combining the most attractive features of both of its parents. It is a healthy, vigorous grower and its introducer predicts for it enormous popularity.

Strong two year plants \$2.00 each

Paul's Scarlet Climber. A most desirable climbing Rose; vivid scarlet, retaining its color through the season. No other climbing Rose can compare with this for brilliancy of color and lasting qualities. Perfectly hardy. 75c and \$7.50.

| | Each | Doz. |
|---|--------|--------|
| Silver Moon. Large, white, semi-double flowers, different from all other climbers..... | \$0.75 | \$7.50 |
| Tausendschoen (Thousand Beauties). Delicate pink; large flowering type..... | .75 | 7.50 |
| White Dorothy Perkins. Same growth as Pink Dorothy and just as profuse in bloom..... | .50 | 5.00 |

PRIMROSE

MME. GREGOIRE STAECHLIN. The first climbing Rose to which a gold medal was awarded at the international test garden for Roses at Bagatelle, Paris, France. The long-pointed buds are crimson at first, outer petals show splashes of carmine. 75c each.

NEW CLIMBING YELLOW RAMBLER PRIMROSE. Claimed by the introducer a yellow that remains yellow. 75c each.

THE NEW DAWN (The Everblooming Dr. Van Fleet). A sport of Dr. Van Fleet. Identical in every way with its parent in size, formation and color, and claimed by the introducer as everblooming. \$1.50 each. Patent No. 1—The first patent issued Aug. 18, 1931 under the new Patent Law, has been granted to the originators of the New Dawn Rose, giving them the sole right for the propagation of this desirable new variety.

NEW CLIMBER, CHAPLIN'S PINK. A valuable companion to Paul's Scarlet and Dr. Van Fleet; large flowered pink, cross between Paul's Scarlet and American Pillar. Strong grower, size and form of Paul's Scarlet. Winner of National Rose Society of England Gold Medal. 2 year plants 75c each.

Danker's Select Hardy Perennial Plants

OF ALL the plants that are cultivated for purely ornamental purposes, there are none which have made such rapid strides in public favor as the old-fashioned Hardy Garden Flowers, the inhabitants of the perennial garden. Their popularity is not at all surprising when we consider the many varied and pleasant changes which take place throughout the entire growing season in a well arranged hardy garden, in which every week—yes, every day—brings forth something fresh and new to interest and delight even the most critical. Beginning in April, the early flowering varieties open their flowers, often before the snow has entirely disappeared, and continue, with constantly changing variety, throughout the Summer, until late in the Fall, when only severe freezing weather will stop such persistent late-blooming kinds as Japanese Anemones, Pompon Chrysanthemums, Gaillardias, Phlox, etc.

Plants are forwarded by express unless instructed to the contrary, purchasers paying charges. Small plants may be forwarded by Parcel Post, and if wanted sent in this way, add 10 per cent to value of order to points east of the Mississippi River and 20 per cent to points west of same.

SPECIAL OFFER: 12

Hardy Perennial Plants, all pot plants,
that will bloom the first year, our selection

\$2.00

Plants for Special Situations

THE following indications will be found to be of great assistance to you in planning special sections of your garden.

S indicates plants suitable for Sun or Half Shade.

Twelve Choice Rockery Plants

Our selection 12 varieties

\$2.00

STOKESIA

Ask about our choice varieties of German Iris

CHRYSANTHEMUMS

THESE beautiful, large flowering Chrysanthemums are quite hardy needing just a little dry leaves or straw to keep the sun from injuring the crowns in Winter. Plant them in a rich, well drained piece of ground setting the plants a foot apart and pinching out the tops once or twice during the Summer, but not later than July 15th. They will make well branched plants that will furnish quantities of flowers after Asters, Dahlias or Cosmos are cut down by frost. The following varieties have been carefully selected and are best suited to our climate.

To secure good pot plants for blooming inside, plants should be taken up and potted not later than August 15, placing them in a shady place a few days and given plenty of water until they become established.

Our early Chrysanthemums are the very best obtainable and are grown by the thousands at our greenhouses for cut flowers. We can supply about 25 later varieties for planting in conservatories.

RUTH CUMMING

LARGE EARLY FLOWERING CHRYSANTHEMUMS

- Betsy Ross. Large exhibition white.
 Celesta. Early ball shaped yellow.
 Citronella. Sulphur yellow, beautiful incurved dwarf in growth.
 Detroit News. Incurved bronze shaded gold, splendid grower.
 Gold Lode. Large yellow. In flower October 10.
 Indianola. Early large bronze.
 Lustre. Earliest pink incurved.
 Oconto. Large creamy white. In flower October 15.
 October Rose. Mauve pink.
 Quaker Maid. White tinted pink.
 Sun Glow. Large pure yellow. In flower October 15.
 Hilda H. Bergen. Deep bronze.

EARLY HARDY GARDEN CHRYSANTHEMUMS

To follow Asters and Dahlias

POMPONS or BUTTON TYPE

- Early Bronze. Very prolific and hardy. Color lively bronze-yellow.
 Lillian Doty. Pink.

- Lillian Doty. White.
 Lillian Doty. Bronze.
 Pink Dot. A little beauty; white with pink center; very double.
 Rodell. Earliest yellow, dwarf, compact grower.
 Silver Ball. Early pure white.
 Zora. Yellow shaded bronze, very prolific.

SINGLE or DAISY FLOWERING

- CRIMSON SPLENDOR (New). Crimson-maroon, with golden yellow center. Each 50c
 Buckingham. Bronze; good variety for cut flowers.
 Buckingham. Large pink; excellent garden type.
 Buckingham. Red; identical to Bronze Buckingham in form.
 Gypsy Girl. Crimson shading to chestnut; a good cut flower variety.
 Mrs. Calvin Coolidge. Rich cardinal red, good size, splendid substance.
 Seashell. A lovely shell pink; blooms mid October.

(Continued on page 29)

JEAN TREADWAY

Except as noted, all varieties are 25c each; \$2.50 doz.

Lengthen the blooming season in your garden by planting hardy Chrysanthemums

ASTER FLOWERED GARDEN CHRYSANTHEMUMS

Barbara Cumming. Clear yellow, shading to orange bronze; commences flowering in late August.

Firebrand. Splendid cluster red.

Frances Whittlesey. Rich bronze and garnet for the Fall garden; a decided color improvement. October 1st.

Jean Treadway (New). Distinctive sparkling pink with dark rose-pink center flowering September 30th. Each 50c

L'Argentuillais. Good red, early.

Leilah. Good rose pink; one of the best garden varieties.

Lilac. Deep rose pink. Blooms Oct. 1st.

October Dawn. Soft daybreak pink in bloom October 5th.

October Girl. Rose pink shading to lavender, fully 2 in. across in full flower by October 1st.

Normandie. Early creamy white.

R. Marion Hatton. Brightest canary yellow, late Sept.

Ruth Cumming. Rich redded bronze, terra cotta shadings.

Except as noted, all varieties are 25c each; \$2.50 doz.

Ruth Hatton. Ivory white shading to lemon yellow, bushy.

White Wings. Early prolific white, tall grower.

New Single Pink Chrysanthemum (Mrs. Mason). Dwarf;

earliest of all pinks. In bloom September 1st.

1932 NOVELTY CHRYSANTHEMUM "ALADDIN"

ALADDIN is the first of a new race of Summer and early Autumn blooming hardy garden Chrysanthemums. This variety blooms weeks and weeks ahead of all other hardy garden varieties, filling a want for an absolutely reliable early. The color is a warm, coppery bronze with an overlay of orange. Apricot shades, much the color of Talisman Rose.

Special Offer, Strong 3 inch Pots
35c each, \$3.50 per doz.

DANKER'S SUPERB HARDY PHLOX

PROBABLY the most satisfactory of all perennials, and worthy of a good space in the garden.

Select the early and late varieties, cut off the heads of blooms as soon as they have faded, and have blossoms from middle of June until ice has formed.

The ground where phlox is to be planted should be trenched fully 2 feet in depth, and may be planted in the Autumn, from the 1st to the 15th of October, so that it may become well rooted before Winter; otherwise it should be set out as soon as the frost leaves the ground in the Spring, as growth begins very early. Mulch the roots with old manure. Set out 18 inches apart, and keep well watered.

In October, after three seasons of flowering, the Phlox should be lifted, the ground again trenched and enriched, the plants separated into bunches of three or four stalks each, and then reset.

The best effects are produced by planting masses of each color, not less than six plants of one color together. A border of phlox may begin with palest pink and shading up to dark cherry, then pure white and white with a red eye, and more white, then quantity of red and again white at the end. In another border the shades of purple can be planted with occasional bunches of white. The phlox will be the pride of the garden.

Most Popular Varieties

Antonin Mercie. Light ground color, prettily suffused with lavender.

Beacon. Brilliant cherry-red.

Bridesmaid (Tall.) White; large crimson-carmine center.

Coccinea. One of the oldest varieties, but of the best bright red.

Commander-in-chief (Hindenburg). New. Crimson-red, dark eye.

Eifel Tower. An outstanding salmon pink, tall, and excellent as a cut flower. Each 50c, doz. \$5.00.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; an entirely new and much wanted shade.

Enchantress. Bright salmon-pink flowers, with dark red eyes.

Europa. White, with crimson-carmine eye; remarkably sturdy.

Firebrand. The very best red.

Jules Sandeau. Pure pink, dwarf, mammoth flower.

La Vogue. Pure mauve, with aniline-red eye.

Mia Ruys. A dwarf variety. Enormous trusses of pure white.

Miss Lingard. A grand white variety, lilac eye; large, individual flowers; blooms in June and throughout the Summer.

Mrs. Milly Van Hoboken. Long heavy trusses of soft shell-pink flowers of immense size.

Pantheon (Tall). Bright carmine-rose.

Rheinlander (Medium). A beautiful salmon pink with deep claret red eye with flowers and trusses of immense size.

R. P. Struther (Tall). Bright rosy carmine with claret red eye.

Thor. Deep salmon pink; aniline red eye.

Von Hochberg. Richest crimson-purple.

Von Lassburg. Purest white, individual flowers very large.

Each 25c, doz. \$2.50, 100 \$15.00 except where noted.

Field clumps undivided. Each 50c, doz. \$5.00

DWARF PHLOX

Divaricata laphami, Perry's Variety. An improved variety. Beautiful lavender flowers in late May. Each 25c, 100 \$20.00.

subulata (Moss or Mountain Pink); lilacina, light lilac; rosea, rose pink; **amoena,** bright pink. Each 25c, doz. \$2.50.

Vivid (New). Good clear rose, compact habit. Each 25c, doz. \$3.50.

FIREBRAND

Masses of Phlox save the Garden in August

DANKER'S FRAGRANT PEONIES

AN IMPORTANT point to observe in the planting of Herbaceous Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with 2 inches of soil. Too deep planting is a frequent cause of shy flowering.

| | | |
|---|--------|--------|
| Baroness Schroeder. Flesh white, tall grower; very fragrant. One of the very best Peonies. | Each | Doz. |
| Couronne d'Or. Large creamy white, yellow center; midseason | \$0.50 | \$5.00 |
| Duchesse de Nemours. Large sulphur white; fragrant. Early | .50 | 5.00 |
| Edulis Superba. Bright mauve pink | .35 | 3.50 |
| Felix Crousse. Large, ball-shaped bloom, brilliant red; one of the finest self colored varieties. | .50 | 5.00 |
| Festiva Maxima. Pure white center, petals tipped red. The most popular white for cutting. | .50 | 5.00 |
| Karl Rosenfield. Large, globular, dark crimson. Flowers midseason. | .50 | 5.00 |
| Lady Alexandra Duff. Very desirable variety. Light rose, shading lighter toward center. We have a nice stock and can furnish these at the reasonable price of. | 2.00 | |
| La Perle. Delicate shell pink; very double. Mid-season | .75 | 7.50 |
| L'Indispensable. Tall, late, flesh pink | .50 | 5.00 |
| Marie Calot. Large, pale Hydrangea pink, with darker shadings in the center. Early | .50 | 5.00 |
| Marie Lemoine. Extra large, late flowering, ivory white. Late white | .50 | 5.00 |
| Mme. Geissler. Very large, compact, globular rose type. Violet rose, tipped silver | .75 | 7.50 |

| | | |
|--|--------|--------|
| Mons. Jules Elie. Flesh pink; full, globular flowers. Early | Each | Doz. |
| Pres. Roosevelt. A standard, dark red, free flowering variety | \$0.50 | \$5.00 |
| Queen Victoria. A good early white | .50 | 5.00 |
| SINGLE PEONIES. 6 choice varieties | .35 | 3.00 |

One each of the three outstanding varieties

Couronne d'Or (White) }
 Felix Crousse (Red) } **\$1.25**
 Mons. Jules Elie (Pink) }

PAEONIA OFFICINALIS

This type is the real old-fashioned Peony and comes into bloom from 10 days to two weeks ahead of the above sorts. It is a strong grower, with large, full, double, fragrant flowers.

Rubra. Bright, glowing, deep crimson. 50c each, \$5.00 doz.

All of the above are strong divisions of two and three eyes; large, field clumps, 3- and 4-years old, can be furnished for \$1.00, \$1.50 and \$2.00, according to varieties; for immediate results, these should be planted.

Flowers are the sunshine of life

IRIS Germanica

NO GROUP of flowers have so wide a range of color as the Iris. From snowy whiteness and clear yellow, through pinks and hazy lavenders, to the deep purples, the Iris gives color and individuality to our gardens. They prefer a well drained, sunny spot with plenty of lime in the soil. Some varieties may be naturalized in half shady locations.

| | Each | Doz. |
|---|--------|--------|
| Ambassadeur. One of the finest, large flowering varieties; standards, deep lavender suffused with bronze; falls, maroon with purplish cast. | \$0.35 | \$3.50 |
| Aurea. Standards and falls, a rich orange yellow | .15 | 1.50 |
| Asia. A grand Iris unlike anything in cultivation with unusual large flowers and fine, hold, up-standing foliage; pale, silvery lavender flowers deepening at base to golden yellow. Beard bright golden yellow | .50 | 5.00 |
| Ballerena. A delicious scented tall growing variety of wonderful tone of porcelain blue; falls, slightly deeper | .35 | 3.00 |
| Cecil Minturn. One of the finest Iris for size and beauty, soft Cattleya rose, broad petals, gracefully waved and crinkled | .35 | 3.00 |
| Cluny. Large flowering. Standards, Wisteria blue; falls, blue violet with deeper shadings | .35 | 3.00 |
| Crusader. Tall, strong growing variety. Standards, a lavender blue; falls, a deeper tone than the standards | .35 | 3.00 |
| Florentina Alba. Very free flowering white | .15 | 1.50 |
| Her Majesty. Standards, a lovely rose pink; falls, bright crimson, tinged a darker shade | .20 | 2.00 |
| Isoline. Standards, lilac suffused with bronze; falls, light purple overlaid with bronze; base of petals yellow with brown golden yellow beard | .20 | 2.00 |
| Lavender. Lavender blue flowers produced freely on strong stems | .25 | 2.50 |
| Lent. A. Williamson. Rated as the finest Iris; large flowers on strong stems. Standards, bright Lobelia blue to violet; falls, rich purple blue at edge, bright golden yellow beard | .35 | 3.50 |
| Lohengrin. Large foliage and flowers with wide petals of a deep violet mauve | .20 | 2.00 |
| Loreley. Perfect shaped flowers. Falls, of a deep ultra-marine blue, veined creamy white and bordered sulphur yellow | .15 | 1.50 |
| Mme. Chereau. Standards and falls, pure white daintly edged with light blue | .15 | 1.50 |
| Ma Mie. Standards and falls, white with lavender edges | .20 | 2.00 |
| Mother of Pearl. Standards and falls, pale bluish lavender with faintly creamy undertone | .25 | 2.50 |
| Maori King. Standards, rich golden yellow; falls, velvety crimson, margined gold | .15 | 1.50 |
| Mrs. H. Darwin. White; falls, slightly reticulated violet at the base. Early free flowering | .15 | 1.50 |
| Nibelungen. Standards fawn and yellow; falls violet purple on bronze. Strong, large flowering | .15 | 1.50 |
| Opera. A rich violet red bicolor. Standards, rich Pansy violet; falls, velvety violet purple | .35 | 3.00 |
| Pallida Dalmatica. Still one of the best Iris, a superb variety for planting in masses and for cut flower. Both standards and falls of a clear lavender blue shading to a pale silver blue at the base and sweetly scented | .20 | 2.00 |
| Perfection. Standards, light blue; falls, velvety violet black with orange beard; handsome | .20 | 2.00 |
| Quaker Lady. Standards, smoky lavender with yellow shading. Falls, Ageratum blue and old gold. Yellow beard | .25 | 2.50 |
| Queen of May. Pleasing soft rosy lilac shading to pink | .15 | 1.50 |
| Rhein Nixe. Standards white; falls, violet blue with white edge; tall grower | .15 | 1.50 |
| White Knight. Almost pure white, medium | .15 | 1.50 |
| Sherwin Wright. Flowers most profusely, color rich golden yellow | .15 | 1.50 |

Visit our Nursery when our Iris are in bloom; we have a number of new varieties not listed

IRIS KAEMPFERI. Japanese Iris

THE improved forms of this beautiful flower have placed them in the same rank popularly as the Hardy Phlox, Peonies, etc. in the flower garden. Coming into flower about the middle of June and blooming from three to four weeks they fill in a period when flowers of this attractive type are very welcome. They thrive in almost any soil and position and are excellent for cut flower when cut in the bud state, permitting the blooms to open in water.

| | Each | Doz. |
|---|--------|--------|
| Albatross (Double). Beautiful large flower of purest white with white tufted center; splendid. | \$0.50 | \$5.00 |
| Dominator (Single). Handsome flowers of a rich violet-purple color with a yellow center. Delicate white veination. | .50 | 5.00 |
| Gold Banded (Double). Pure white creamy glow with gold banded center. | .50 | 5.00 |
| Leila Cox (Double). Light blue, white veins in center with yellow blotches. | .50 | 5.00 |
| Mrs. J. Alexander Hayden (Double). White ground edged and shaded pale violet. | .50 | 5.00 |
| Purple and Gold (Double). Rich violet-purple, gold center, enormous flowers. | .50 | 5.00 |
| Mixed Japanese Iris . A fine mixture of colors. | .35 | 3.50 |
| One each of the above 6 varieties for \$2.50 | | |

LILIAM AURATUM

DWARF IRIS

| | | |
|--|--------|--------|
| Iris cristata . A dainty native creeping species, only 3 in. in height; rich amethyst blue; a gem for the rock garden. | \$0.20 | \$2.00 |
| Iris pumila . Pale lemon yellow. Do not grow over 4 in. high; bloom in April and May. | .20 | 2.00 |
| Iris sibirica . White and blue; vigorous, free flowering variety of very easy culture. Splendid for naturalizing and for water sides; strong. | .20 | 2.00 |

MADONNA LILIES

LILIES FOR GARDEN AND POT CULTURE

THE LILIES are among the most beautiful and ornamental of cultivated bulbous plants (which are in many cases highly perfumed) rendering them indispensable subjects for outside garden planting and conservatory decoration. All the varieties we offer are hardy in this climate. The commoner and more plentiful species may be effectively employed for grouping or naturalizing.

Lilium auratum (*Gold Banded Lily of Japan*). Undoubtedly one of the finest. 3 to 5 ft. Blooms July to September. Very fragrant. 35c each, \$3.00 per doz.

Lilium candidum (*Madonna, or St. Joseph Lily*). A most desirable white-flowered Lily for outdoor culture. Perfectly hardy, and continues to bloom from year to year. 50c each, \$5.00 per doz. (Dry bulbs, September and October delivery. 25c each, \$2.50 per doz.)

Lilium longiflorum (*White Trumpet or Easter Lily*). 35c each, \$4.00 per doz.

Lilium regale or **Royal Lily** (New). Chinese variety; exquisite blending of tints and color, white faintly tinged with yellow at base, shaded pink outside; very hardy, requiring good soil and increases in beauty as bulbs become established. 4 year bulbs 35c each, \$3.50 per doz. 3 year bulbs 25c each, \$2.50 per doz.

Lilium speciosum magnificum (*Japanese or Orchid Lily*). White ground, pink spotted petals, well rolled back. Flowers in August and September. 40c each, \$4.00 per doz.

Lilium tigrinum splendens. Old-fashioned Tiger Lily, orange with black spots; blooms freely outdoors. 25c each, \$2.50 per doz.

Lilium tigrinum splendens flore pleno. Double Tiger Lily. 35c each, \$3.50 per doz.

Lilium henryi. Rich orange-yellow, vigorous in growth; one of the best border Lilies. 50c each, \$5.00 per doz.

Lilium willmottiae. One of the finest garden lilies of slender foliage and heads of numerous, orange red flowers. 3 to 5 ft. July and August. 50c each, \$5.00 per doz.

Lilium sulphurium. A rare giant flowering lily, sulphur yellow and producing flowers 8 to 10 inches long. \$1.50 each.

Lilies should always be planted 6 to 8 inches deep in well drained ground

LOMA—for Colorful, Full-Flowered Plants and Vegetables

EVERYONE loves a beautiful lawn; everyone wants his flowers to be the biggest and brightest—and it is just such beauty that Loma brings to grass and garden.

Apply Loma to your lawn today and within ten days to two weeks the grass will be thick and green and velvety. If this should seem scarcely believable, get a one-pound or five-pound package. Apply it to a small area of the lawn. Water it thoroughly—and watch the results!

Apply Loma to your flower beds, shrubbery, potted plants and vegetable garden. Water thoroughly, and in a few days note the unbelievable improvement.

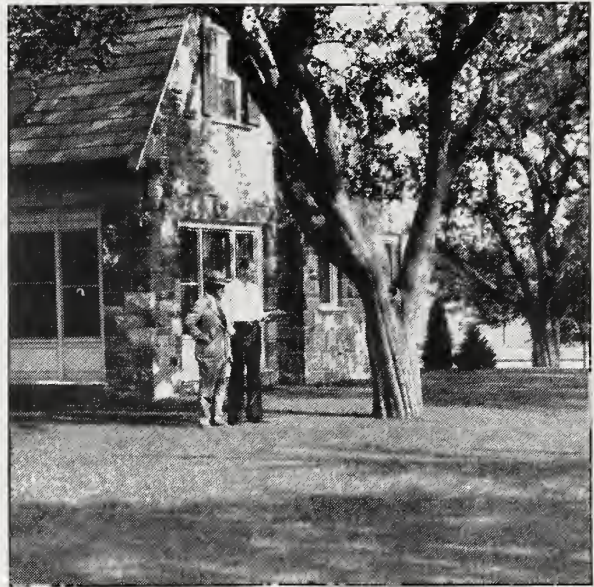

Loma is a quick-acting plant food—when applied and watered thoroughly, it dissolves completely, and gets to the roots immediately. The result is that it is taken in immediately by the plant, and grass and flowers are benefited at once—you don't have to wait all season. Also, it is a *complete* plant food—that is, it supplies everything that your lawn and garden needs—nitrates, potash, and phosphates in an immediately available form. Indeed, Loma has been so successful, that it now is the largest selling plant food throughout the United States.

Send for a supply this season. It can be had in all sizes from 1 and 5 lbs. to 100. Full directions on the package.

Cow Manure

(Shredded and Dried)

One sack of this is equal to one cartload of cow manure, is convenient to handle, making it possible for everyone to get this usually scarce article at all times.

| | |
|----------------|--------|
| 10 lbs. | \$0.60 |
| 25 lbs. | 1.25 |
| 100 lbs. | 3.50 |
| 500 lbs. | 16.50 |
| 1000 lbs. | 30.00 |
| 2000 lbs. | 54.00 |

Driconure

Cow manure mixed with peat moss, dried and dehydrated. Being bulky in nature, you use it liberally. But have no fear, it will *not* burn. If you apply more than your plants can use, the surplus builds up a soil reserve—it does not leach away.

| | |
|---------------------------|--------|
| Large bag of 50 lbs. | \$2.75 |
| 5 pound bags | .50 |

Granulated Peat and Poultry Manure

A splendid dressing for trees, shrubs and evergreens.
50 lb. bags

Poultry Manure

We have found this the best fertilizer for Dahlias.

| | | | |
|--------------|--------|---------------|--------|
| 50 lbs. | \$2.00 | 100 lbs. | \$3.50 |
|--------------|--------|---------------|--------|

Pulverized Sheep Manure

One of the most generally used of animal manures. Being sterilized, it contains but few weeds.

| | | | |

What is a home without a garden?

ALL AMERICAN FLOWER SELECTIONS

The following selection was made by commercial seedmen and florists for their newness, general popularity and outstanding merit.

Nasturtium. Double Golden Gleam. Sweet scented flowers borne on six inch stems well above the foliage form a solid mass of gold. Pkt. 25c; $\frac{1}{2}$ oz. 50c.

Marigold, Guinea Gold. Graceful, semi-double, large brilliant orange flowers with ruffled petals. Pkt. 25c; $\frac{1}{8}$ oz. 40c.

Campanula. Annual Canterbury Bells, mixed, a fine improvement over the biennials, height $2\frac{1}{2}$ ft., blooms in less than six months. Colors dark blue, light blue, rose and white. Pkt. 25c; $\frac{1}{8}$ oz. 50c.

Verbena. Beauty of Oxford Hybrids. A giant selection ranging from Rose Pink to Rose Red. Pkt. 35c.

Lupine. Hartwegi Giants mixed. A decided improvement over the old Annual Hartwegi type with many more blooms to the spike. Colors include dark blue, azure blue, rose and white. Pkt. 25c; $\frac{1}{4}$ oz. 75c.

Pansy. Maple Leaf Giants. Compact plants with huge flowers. Color range same as the Swiss Giants. Pkt. 35c; $\frac{1}{8}$ oz. 75c.

Annual Delphinium. Cambridge Blue. Far more brilliant than Belladonna with chinensis habit of growth. Pkt. 35c.

Aster. Wilt Resistant Mixed. This strain will produce healthier plants of sturdier substance. They are disease free and can be grown in the same soil for many years. Pkt. 25c.

Verbena. Lavender Glory. The first real lavender verbenas with creamy white eye. Flowers giant in size. Pkt. 35c; $\frac{1}{8}$ oz. 75c.

Venidium Fastuosum. New from the Cape this striking species adds to the cut flower list. Deep orange daisy-like flowers five inches across with reddish-brown centers. Pkt. 25c.

GIANT DAHLIA-FLOWERED ZINNIA

Grow your Perennials from seeds

CANNAS

No other bedding plant will give the same uniformly good results in our varied and trying climate. They do well in all sections of the country, and stand pre-eminently at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded 2 feet deep and a liberal amount of Bone Meal, Vigoro or Cow Manure thoroughly incorporated, and at all times supplying water freely.

FREE FLOWERING CANNAS

The President. The best red. Immense florets of bright red color enhanced by extraordinary vigor and perfect, healthy foliage. It grows to a height of 5 feet and produces its immense trusses of florets in great profusion. The most sensational introduction of recent years. Each 20c, doz. \$2.00, 100 \$15.00.

Mrs. Alfred Conard. One of the very best Cannas in commerce today. The large, exquisitely shaded salmon-pink flowers are produced in great abundance on robust, upright stalks. 4 feet. Each 20c, doz. \$2.00, 100 \$15.00.

Eureka. The best white Canna for all purposes. The large, substantial flowers are produced on strong, vigorous plants. Each 20c, doz. \$2.00, 100 \$15.00.

Yellow King Humbert (Queen Helen). Identical with King Humbert in habit of growth, but has yellow flowers and green foliage. 5 ft. Each 20c, doz. \$2.00, 100 \$15.00.

The Ambassador. Like President in color, but with bronze foliage; vigorous and free flowering. Each 20c, doz. \$2.00, 100 \$15.00.

King Humbert. The most popular of all Cannas. Great orange-scarlet flowers surmount beautiful coppery-bronze foliage. Each 20c, doz. \$2.00, 100 \$15.00.
(1 each of above 6 varieties \$1.00)

DEPENDABLE GARDEN BOOKS

Written by authorities in clear, understandable language.

Well bound and profusely illustrated.

ROCK GARDEN PRIMER. By Archie Thornton. Covering the subject from the ground up for the beginner. Splendid pen and ink drawings by the author of the various operations necessary in the building and maintaining of a rock garden. Handsome four-color plates. Cloth, \$2.15.

ADVENTURES IN DISH GARDENING. By Patten Beard. How to make beautiful, miniature landscapes. 69 full-page illustrations (4 in color). Leatherette, \$2.65.

1001 GARDEN QUESTIONS ANSWERED. By Prof. Alfred C. Hottes. Every problem confronting the home gardener is satisfactorily answered. Covers flowers, fruits, vegetables, the home grounds, etc. Paper, \$1.65; cloth, \$2.15.

THE BOOK OF SHRUBS. By Prof. Alfred C. Hottes. Most complete book on the subject. Its contents invaluable to all. 446 pages, over 185 halftones and diagrams. Cloth, \$3.15.

LANDSCAPING THE SMALL HOME. By Edward W. Oliver. Especially written for the owner of a small place. Numerous plans and full information on planting. Cloth, \$2.15.

ALL ABOUT FLOWERING BULBS. By T. A. Weston. Complete information on bulbs of all seasons. Spring flowering, tender flowering and Summer flowering. 186 pages with 73 full-page plates (8 in 4-colors). Cloth, \$2.15.

PLANT PROPAGATION. By Prof. Alfred C. Hottes. An exposition of the art and science of increasing plants. Appeals to everyone who has to do with seeds and plants, whether amateur or professional. Cloth, \$2.15.

MILADY'S HOUSE PLANTS. By F. E. Palmer. For those seeking success with plants in the home; 100 instructive pictures. Paper, \$1.10; cloth, \$1.35.

FLOWERS OF THE WILD: Their Culture and Requirements. By Frank C. Pellett. Covers most of the common wild flowers suited for naturalization in the northeast and the best of them from the west. 168 pages. 104 illustrations and 4 color plates. Cloth, \$2.15.

CITY AND SUBURBAN GARDENING. By Chesla C. Sherlock. Discusses every angle of city and suburban gardening, from the landscape problems of the

small plot to rock and water gardening. 186 pages. Cloth, \$2.15.

PRACTICAL LANDSCAPE GARDENING. By Robt. B. Cridland. For the owner of a modest home. Takes up all the elements that enter into the beautifying of properties. 276 pages. Cloth, \$2.65.

A LITTLE BOOK OF CLIMBING PLANTS. By Prof. Alfred C. Hottes. The only book obtainable combining all climbing plants, of whatsoever nature, in the one volume. 250 pages. Paper, \$1.65; cloth, \$1.90.

FOUNDATION PLANTING. By Leonard H. Johnson. Covers the art and science of beautifying, by means of plants, the immediate frontage of the house, and, when opportunity serves, the sides and rear. 256 pages. Cloth, \$3.65.

THE PRINCIPLES OF FLOWER ARRANGEMENT. By Prof. E. A. White. For the hostess, the social leader and all who delight in displaying flowers to their fullest beauty. 226 pages. Cloth, \$3.15.

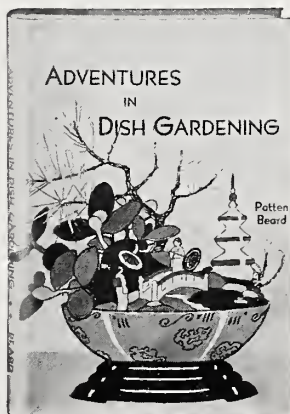

MODERN DAHLIA CULTURE. By W. H. Waite. Brief, clear, complete, based on the actual operations and results of a practical, experienced grower, propagator and exhibitor. 132 pages. Cloth, \$1.65.

THE WOMAN'S FLOWER GARDEN. By Jane Leslie Kift. A book for women on the care of flowers and plants in the home and on their cultivation in the garden. 160 pages. Cloth, \$1.35.

THE BOOK OF ANNUALS. By Prof. Alfred C. Hottes. A reliable guide through the season of annual bloom. Over 100 separate species are described with full directions for their culture and uses. 182 pages. Cloth, \$1.65.

THE BOOK OF PERENNIALS. By Prof. Alfred C. Hottes. Devoted to the general principles of growing, using, selecting and propagating perennials. 280 pages. Cloth, \$1.65.

WATER GARDENS AND GOLDFISH. By Robt. V. Sawyer and Edwin H. Perkins. Teaches the amateur the art of growing Waterlilies in a small way and thoroughly covers the establishment and management of the home aquarium. Cloth, \$1.65.

Information For Our Patrons

NEW ACCOUNTS—Cash with order or satisfactory references. All bills due 60 days from date of invoice.

C. O. D. ORDERS must be accompanied with a deposit.

DAMAGED PLANTS—Should a shipment reach you by express damaged, sign for it: "**Received in damaged condition,**" and be sure to notify your express agent at once to inspect the plants. Then notify us immediately and we will assist in every way possible that the shipment may not be a total loss. Do not return plants to us without first communicating with the express company.

CLAIMS—All claims must be made on receipt of goods, or they will not be entertained.

NO WARRANTY—We exercise the greatest care to have all *bulbs, plants and nursery stock* true to name and free from disease or defects. While we are prepared to replace any which may be otherwise, on receipt of proper proof, we do not give any warranty, express or implied and will not be responsible for the crop, nor shall we be held for a greater amount than the original price of the goods. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once and the money which was paid for them will be refunded.

PRICES—All prices and terms are subject to change without notice. This is made necessary by unsettled business conditions that affect the cost of materials that we are obliged to buy for operating our business, and also by fluctuations in the prevailing wage rate.

EARLY ORDERS—To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short

notice, without doing an injustice to others who have their orders previously booked. In fairness to all, we have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that we can arrange a special shipping date. So we repeat—*place your orders as far in advance as you possibly can*, stating when you would like stock sent.

PLANTS BY EXPRESS—We do not deliver plants free by express, the purchaser paying the charges, which are by the principal express companies, 20 per cent. less than regular merchandise rates. We strongly urge this method of transportation, as it enables us not only to give better values in the form of larger and finer plants, *and unless instructed to the contrary, all orders are forwarded by express.*

PLANTS BY RAIL—Shrubs, Hedge Plants and other dormant stock can be forwarded safely by fast freight lines, even to very distant points, at low rates.

PACKING FREE—All retail orders. We make absolutely no charge for boxes or packing or delivery to any express, freight or steamship line in Albany, N. Y. Wholesale orders to the trade, charges for boxes and packing material at cost.

SAFE ARRIVAL GUARANTEED—We guarantee the safe arrival of all plants in any part of the U. S. or Canada when sent by express. *If forwarded in any other manner they are entirely at the risk of the purchaser.*

We would like to impress upon our customers and intending customers that it is to our interest as well as theirs that only strong, healthy stock be furnished. We believe that our satisfied customers will be our best advertisements.

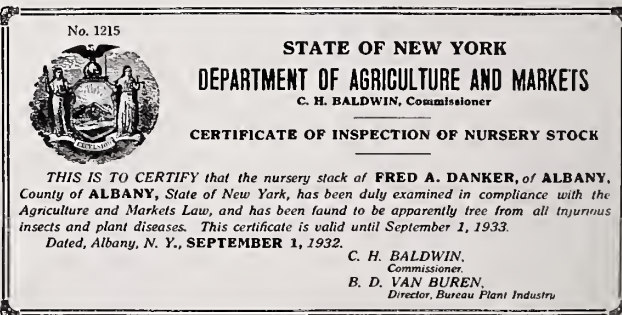

Our nursery and greenhouses are always open for inspection.

Replacing

The utmost care is exercised in the growing, the digging, packing and shipping of all **Danker** trees, shrubs and plants. It is as much to our advantage as to yours to have your order reach you in the pink of condition, ready to grow and to give you the resulting pleasure.

The success of a tree or plant depends upon its care after leaving our hands and in conditions over which we can have no control. A tree can be killed by too much as well as by too little water, by being planted too deeply or not deeply enough, or by having its naked roots exposed to wind or sun (Evergreens are especially endangered by this last lack of care). One should also bear in mind that a tree planted in the spring may show no life until Autumn or even until the following spring. We have often had trees reported as lost when in reality they were alive and healthy.

We have every confidence in our stock and will willingly adjust any reasonable claim against us, provided the order has been previously paid for according to the terms of the sale, provided also that the claim is made within a reasonable time

from the date of receipt of the stock. We cannot honor a claim unless the plants concerned are left undisturbed in the ground so that the conditions can be investigated should we feel this advisable.

Plants for Cut Flowers, Bedding, Window and Porch Boxes

All of the following are pot grown, and 2½-, 3-, 4- and 5-in. is meant for the size of pots, does not refer to height of plants.

| | | | |

ISMENE CALATHINA. Large white blossoms, like Amaryllis. Each 25c..... 2.50

TRITOMA PFITZER

Varieties marked * are best for Cut Flowers

Plant plenty of Salvia for Fall bloom; Danker's Improved variety is very free and early

HARDY DECIDUOUS SHRUBS

In this class are included the most popular and better known of our hardy flowering and ornamental shrubs. Their popularity is based on the wealth of flowers which they produce and their adaptability to the most ordinary conditions. No class of plants presents to our landscape a greater array of blossoms or a more symmetrical arrangement of their flowers, and once established, with the exception of a periodical trimming, may be left to take care of themselves, increasing in size and beauty from year to year. All shrubs offered are strong and healthy, mostly 3- and 4-year old.

AMYGDALUS (Flowering Almond). Early Spring flowering shrubs, fully in bloom before the leaves appear. The beautiful rose or white flowers snuggle tight to the twigs.

Double White, 2-3 ft., each 50c, doz. \$5.00.

Double Pink, 2-3 ft., each 50c, doz. \$5.00.

ALTHAEA (Rose of Sharon). Blooms late in August and September. Brightly colored flowers. Very attractive. Should have a little protection in Winter until established.

White, Pink. 3 ft., each 50c, doz. \$5.00.

BERBERIS thunbergi (Japanese Barberry). An indispensable shrub because of its adaptability for most any purpose. Absolutely the very best hedge shrub for this climate. 12 in. (25 at 100 rate), each 15c, doz. \$1.50, 100 \$10.00; 1½ ft. (25 at 100 rate), each 20c, doz. \$2.00, 100 \$15.00; 1½-2 ft. (25 at 100 rate), each 30c, doz. \$3.00, 100 \$20.00.

Box Barberry. The Box Barberry successfully takes the place of the Box borders for edging beds in formal gardens and along walks, where Boxwood is not hardy. 2 and 3 year vigorous plants, field grown, \$18.00 and \$25.00 per 100.

vulgaris. Tall, strong grower, bearing an abundance of red fruit. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 50c, doz. \$5.00.

vulgaris purpurea. Tall grower, purple leaves and red fruit. 2-3 ft., each 50c, doz. \$5.00.

BUDDLEIA VEITCHII IMPROVED

BUDDLEIA veitchii, Improved (Butterflybush). A beautiful shrub, bearing long sprays of lilac colored flowers with great freedom until stopped by frost. This is the best variety yet introduced. 2 year plants, each 50c, doz. \$5.00. Strong, field grown plants, each 75c, doz. \$7.50.

RED-LEAVED JAPANESE BARBERRY

(*Berberis thunbergii atropurpurea*)

It is similar in all respects to the well known Japanese Barberry, which is so popular for foundation planting and hedges, but the foliage of this new variety is of a rich, bronzy red, getting more brilliant throughout the Summer, changing in the Fall to bright orange and scarlet with bright scarlet berries. Should be planted in full exposure to the sun. 12-15 in., each 35c, doz. \$3.50; 15-18 in., each 50c, doz. \$5.00; 18-24 in., each 75c, doz. \$7.50; 24-30 in., each \$1.00, doz. \$10.00.

FORSYTHIA FORTUNEI

CALYCANTHUS floridus (Sweet Strawberry Bush or Carolina Allspice). A unique shrub of good growth, blossoming oddly at the leaf axils in double, spicy, fragrant flowers of chocolate red. 2-3 ft., each 50c, doz. \$5.00.

CERCIS canadensis (Judas Tree or Red Bud.) Showy, tall shrub branches covered with rosy pink flowers before leaves appear. Specimen shrubs, 5 to 6 ft. \$2.50 each.

CORNUS florida (Dogwood). White. The Dogwoods have many desirable qualities to place them among the most popular flowering trees. The early Spring flowers are followed with attractive red berries. The leaves have brilliant shades of scarlet in the Fall. 5-6 ft., each \$2.00; 6-8 ft., each \$4.00.

Our new improved Buddleia deserves a place in every garden

CORNUS—Continued

florida rubra. Red. 3-4 ft., each \$2.50; 4-5 ft., each \$3.00; Specimen plants, 6 to 8 years old. \$10.00 to \$15.00.

elegantissima variegata. Shrub. Grows 6-8 ft. high, with purplish red branches and beautiful silver variegated foliage. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

lutea (Yellowtwig) Shrub. A striking, yellow branched form, satisfactory for contrasting. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 50c, doz. \$5.00.

sibirica (Redtwig) Shrub. Grows 6-8 ft. high, with clusters of fine white flowers, succeeded by a Fall crop of ornamental berries, stem and branches turning to blood red in Winter. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 50c, doz. \$5.00.

CYDONIA japonica (Japanese Quince). This shrub is completely covered with dazzling scarlet flowers in early Spring, followed by small, quince-shaped fruits which are quite fragrant. 1½-2 ft., each 50c, doz. \$5.00; 2-2½ ft., each 75c, doz. \$7.50.

DEUTZIA gracilis. Dwarf growing, densely bushy, branches wreathed with white flowers in May. 15-18 in., each 35c, doz. \$3.50; 18-24 in., each 50c, doz. \$5.00.

lemoinei. Large flowers of pure white, borne in cone-shaped heads. 1½-2 ft., each 35c, doz. \$3.50; 2-2½ ft., each 50c, doz. \$5.00.

crenata magnifica. A most distinct new variety with large corymbs of pure white flowers growing from 3-4 ft. high. 3-4 ft., each 50c, doz. \$5.00; 4-5 ft., each 75c, doz. \$7.50.

EUONYMUS alatus (Cork-barked Euonymus). Grows 8 ft. high. Small, delicate flowers in late Spring are followed by attractive red berries in the Fall. Curious corky bark, brilliant Autumn foliage. Best for individual planting. 2-3 ft., each 75c, doz. \$7.50; 3-4 ft., each \$1.25; Large specimen plants, each \$3.00 up.

europaea. A large shrub, bearing rose colored capsules with red seeds in Autumn. Striking, conspicuous. Large specimen plants, each \$2.50 up.

alatus compacta (New). 2-2½ ft., each \$1.00.

EXOCHORDA grandiflora (Pearlbush). Bears clusters of beautiful white flowers in May-June. 3-4 ft., each 50c, doz. \$5.00; 4-5 ft. specimen, each \$1.50.

FORSYTHIA fortunei. Erect branches and dark green foliage. 3-4 ft., each 50c, doz. \$5.00; 4-5 ft., each 75c, doz. \$7.50.

pumila (New). Very hardy; the most free flowering of all the Forsythias. 3-4 ft., each 75c, doz. \$7.50; 4-5 ft., each \$1.00, doz. \$10.00.

HYDRANGEA arborescens (Hills of Snow). Flowers are similar to the familiar "Snowball" in appearance. A native variety, with white flowers in July. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 60c, doz. \$6.00.

paniculata grandiflora. Wonderfully attractive when laden with their massive white flowers from August till Autumn. Single specimens, severely pruned every Spring, and large beds kept in uniform development are extremely showy. 1½-2 ft., each 35c, doz. \$3.50; 2-2½ ft., each 50c, doz. \$5.00; 2½-3 ft., each 75c, doz. \$7.50; Tree form, each \$1.00, \$1.50, \$2.00, \$3.00.

KERRIA japonica. Graceful, slender, drooping branches, laden with a wealth of rich yellow flowers resembling large Buttercups. May-June. 1½-2 ft., each 50c, doz. \$5.00.

LILAC, Common Purple. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

Common White. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

FRENCH NAMED LILAC. All varieties.

Hugo Koster (New). Beautiful shade of lilac.

Giant des Batailles. Large trusses. Single, Blue.

Jules Simon. Very large flowers and trusses; lilac mauve passing to pale azure. Double.

KOLKWITZIA AMABILIS

DEUTZIA GRACILIS

Plant Flowering Shrubs along your property line

LILAC PRES. GREVY

FRENCH NAMED LILAC—Continued

Mme. Casimir Perier. Very large; white; double.

Mme. Lemoine. A very fine pure white; double.

Michael Buchner. Dwarf, pale lilac; very double.

President Grevy. Very large, handsome soft blue; flowers very double.

1½-2 ft. Each \$1.00
3-4 ft. Each \$1.50, \$2.00

Quotations given on larger sizes.

LONICERA (Bush-honeysuckle).

fragrantissima. The early pink and white flowers are sweetly fragrant, and its foliage remains till late in Winter.

3-4 ft. Each 50c, doz. \$5.00

4-5 ft. Each 75c, doz. 7.50

morrowi. A spreading variety, growing 4-6 ft. tall. June. Flowers white and bear very handsome fruit.

3-4 ft. Each 50c, doz. \$5.00

tatarica alba. A variety of upright habit, with very large, pure white flowers, June.

3-4 ft. Each 50c, doz. \$5.00

4-5 ft. Each 75c, doz. 7.50

rubra. Deep rose pink flowers. Early.

3-4 ft. Each 50c, doz. \$5.00

4-5 ft. Each 75c, doz. 7.50

NEW KOREAN SPIRAEA tricarpa. Plants were sent to Arnold Arboretum in 1917. Masses of snow white flowers with darker eye.

2-3 ft. Each 75c, doz. \$7.50

NEW BEAUTYBUSH KOLKWTZIA amabilis. Another of Dr. E. H. Wilson's new shrubs. Flowers that cover the bush in a pink cloud. 1½-2 ft., each 50c; 2-2½ ft., each 75c.

PUSSY WILLOW. Grow your own Pussy Willows. For cut sprays we offer the giant variety; strong shrubs. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 50c, doz. \$5.00.

PHILADELPHUS coronarius (Garland Mockorange). A fine old form, grows 8-10 ft. tall. Its large white flowers in very graceful sprays are delightfully scented. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50; 4-5 ft., each \$1.00, doz. \$10.00.

aureus (Golden Syringa). Valuable for contrasting grouping and the best goldenleaved shrub. 12-15 in., each 50c, doz. \$5.00; 15-18 in., each 75c, doz. \$7.50.

grandiflorus. Very large flowers in June. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50; 4-5 ft., each \$1.00, doz. \$10.00.

virginalis. One of the most beautiful new varieties. Strong, tall grower, with very large, double crested flowers with round petals. Pure white, sweetly scented, clusters of five to seven. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50; 4-5 ft., each \$1.00, doz. \$10.00.

PRIVET Ligustrum ibolium. Strong 2 and 3 year stock well branched, absolutely hardy, very best privet for this climate. Will not winter kill. \$10.00, \$12.00, \$15.00 per 100.

PRUNUS pissardi (Purplecleaved Plum). Handsome and distinct little tree, covered with a mass of small, white, single flowers in Spring; later with showy pinkish purple leaves that deepen in color to the end of the season. 3 ft., each 75c, doz. \$7.50; 4-5 ft., each \$1.50; 5-6 ft., each \$2.00.

triloba (Double-flowered Plum). The whole tree is decked in a fleecy cloud of very double, light pink blossoms in early Spring before its leaves appear. Very effective on a still, leafless landscape. 2-3 ft., each 75c, doz. \$7.50; 3-4 ft., each \$1.00, doz. \$10.00.

HYDRANGEA PANICULATA GRANDIFLORA

Our special offer of 12 assorted flowering shrubs \$5.00

RHODOTYPOS kerrioides (White Kerria). 3-6 ft. An attractive shrub, with yellowish foliage, large single white flowers late in May followed by black seeds. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

aurea (Golden Elder). The golden yellow leaves give heightened effects in tone and color. Grows naturally 10-12 ft. but can be pruned into a neat, compact little bush. 3-4 ft., each 50c, doz. \$5.00; 4-5 ft., each 75c, doz. \$7.50.

RHUS cotinus (Purple Fringe, or Smoketree). A small tree or conspicuous spreading shrub with large leaves; overhanging in Midsummer by mistlike clouds of tiny lavender flowers. 3-4 ft., each \$1.00; 4-5 ft., each \$1.50.

SPIRAEA Anthony Waterer. Very free flowering. The best dwarf type. Large corymbs of brilliant rosy crimson. 1-1½ ft., each 50c, doz. \$5.00; 1½-2 ft., each 75c, doz. \$7.50.

froebeli. Similar to Spiraea Anthony Waterer, but more robust, has better foliage of a reddish bronze tint. 1½-2 ft., each 50c, doz. \$5.00; 2-2½ ft., each 75c, doz. \$7.50.

prunifolia, florepleno (Bridalwreath). Plumleaved foliage, free grower. Its long, curving branches are covered with small, double white flowers in early Spring. 3-4 ft., each 50c, doz. \$5.00; 4-5 ft., each 75c, doz. \$7.50.

opulifolia aurea (Goldenleaved Ninebark). Golden yellow foliage, double white flowers in June. 3-4 ft., each 50c, doz. \$5.00.

thunbergi. A splendid low growing shrub. Fine, delicate foliage, a mass of small white flowers in April and May. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

vanhouttei. One of the very best of all shrubs. A complete fountain of pure white bloom in May and June. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 50c, doz. \$5.00; 4-5 ft., each 75c, doz. \$7.50.

SYMPHORICARPOS racemosus (Snowberry). A well known shrub blooming in June and July, followed by large milk white fruits which remain far into Winter. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

HYDRANGEA ARBORESCENS STERILIS

chenaulti. New Chinese shrub with large red berries. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

vulgaris (Indian Currant). Medium sized, graceful habit. Small foliage and flowers, bears small purple fruit which remains on plants in Winter. A splendid shrub for hedge and will stand a great deal of shade. 2-3 ft., each 35c, doz. \$3.50; 3-4 ft., each 50c, doz. \$5.00.

VIBURNUM carlesi. A new introduction from China. The flower buds are formed in Fall, developing in Spring into large corymbs of flowers, resembling a Bouvardia; of rosy white, exhaling a delicious perfume more powerful than the Jasmine. Hardy in this climate. 18-24 in., each \$1.00 and \$1.50.

dentatum (Arrowwood). Bright green, heart-shaped leaves turning to purple and red; flowers creamy white, in flat cymes. May and June. The fruits blue black. 3-4 ft., each 60c, doz. \$6.00.

opulus (Highbush Cranberry). May and June. Spreading habit. Single white flowers borne in flat, imperfect clusters. Valued for the brilliant red berries that cling to the leafless branches during the early part of the Winter. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

sterilis (Snowball). Guelder Rose, or old fashioned Snowball. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

WEIGELA Eva Rathke. The most distinct and one of the most attractive varieties. Flowers deep carmine red. 2-3 ft., each 50c, doz. \$5.00; 3-4 ft., each 75c, doz. \$7.50.

rosea. A tall growing shrub, with deep pink flowers in the greatest profusion during June. 3-4 ft., each 50c, doz. \$5.00. 4-5 ft., each 75c, doz. \$7.50; **Variegated Foliage**, each 50c, doz. \$5.00.

WEIGELA ROSEA

Spiraea vanhouttei makes an ideal flowering hedge

VIGORO for Better Lawns and Gardens

Be sure your plants get all the nourishment they need for full growth and beauty. Feed them regularly with **Vigoro**, the complete, scientifically balanced plant food.

Vigoro produces thick, velvety green lawns, with deep, extensive roots; helps choke out weeds and increases humus in the soil. It makes flowers larger and more beautiful; produces early, delicious vegetables; luxuriant shrubbery, and healthy, full-foliaged trees.

Vigoro is clean, odorless and easy to use. It's economical, too! Costs only 10c to 20c for every 100 square feet. Complete directions in every bag.

Order enough for everything you grow.

Shrubbery and Trees

DANKER'S HIGH GRADE LAWN GRASS SEED

Weights 20 pounds per bushel

This **HIGH-GRADE LAWN GRASS SEED** is composed of the very finest recleaned grasses, free from weeds and all foreign matter. Where a strictly first quality grass seed is wanted, I can recommend this grade of seed, it requiring only three to four bushels to the acre for new lawns, and one to two bushels for renovating old lawns.

By sowing **HIGH-GRADE LAWN GRASS SEED** you will obtain a beautiful, deep green lawn, which, owing to the varieties used in this mixture, will retain its velvety appearance during the entire Summer.

One quart of our **HIGH-GRADE LAWN GRASS SEED** is sufficient to sow about 300 square feet: an acre will require from three to four bushels. To produce a good lawn, it is always best to sow the seed thickly.

National
Eezy Wear
Garden Gloves

All-Leather — DIRT-PROOF
SOFT AS KID — Extra Pliable

Ideal gloves for men and women, made from select imported leather processed to render it amazingly soft and pliable, as well as durable. Permit almost barehand freedom with perfect comfort, yet insure complete protection from dirt, scratches, bruises, stains. Economical—outwear 6 pairs of fabric gloves and are useful the year round for Garden, Housework, Painting, Yard, Furnace, Garage, etc.

WASHABLE!

Sizes for women: "Small," "Medium," "Large"—for men: "Medium," and "Large." Price, 75 cents a pair (2 pair, \$1.40), postpaid.

High Grade Lawn Grass Seed

Price: Per qt. 35c; 4 qts. \$1.25; 8 qts. \$2.25;
Bushel, 20 lbs. \$7.00

CREeping BENT. A valuable low growing variety of grass seed used on fine lawns. Special prices on large quantities.

White Clover Seed, Lb. 60c. 5 lbs. \$2.50

Sea Side Creeping Bent, 85c lb.

WHITE CLOVER SEED. Lb. 60c. 5 lbs. \$2.50

SEA SIDE CREEPING BENT. 85c lb.

Stimulate your lawn and garden with Vigoro

Suggestions for Planting Evergreens, Trees or Shrubs

PREPARING THE HOLES

Dig the hole at least 1 foot wider than the root area of the tree it is to hold, and from a foot to 2 feet in depth, according to the root system. If the soil is poor, some sods, well rotted manure, old compost or bonemeal should be added and worked in thoroughly. If the soil at the bottom of the hole is a stiff, hard clay, shale, or a gravelly hardpan, it should be picked and broken up to a depth of a foot or more and Prepared Humus or good soil mixed with it.

SETTING THE TREE

Before setting the tree, go over the root system carefully and with a sharp knife or pruning shears, cut off all the broken and bruised portions of the roots. This does not apply to specimen evergreens delivered with ball of earth, which should not be disturbed. The soil mark on the bark of the tree will show the depth at which it stood in the nursery; take good care when placing your tree in the hole that it comes at the same depth. *Do not plant too deep.* Spread the roots out naturally so that they may not be twisted or crowded, then fill in gradually with fine soil, working it in between the roots, so that no unfilled places may be left. Fill the soil in, layer by layer, and shake the tree while doing so, to assist the soil to work in between the roots. Tamp the soil down carefully, but firmly after each layer has been filled in. Continue this process until the hole is filled to within about 2 inches of the top, then the remainder of the soil should be shoveled in, leveled up and brought to the surface without tamping. *Do not hill the dirt up around the tree.*

In dry weather, a liberal allowance of water may be used before filling in the last soil and allowed to soak away gradually, after which the filling may be done as described above.

MULCHING

The importance of mulching, especially in dry seasons, should not be overlooked, its object being to hold moisture about the roots and thus aid in the successful growth of the tree. Spread some coarse manure or compost over the surface around the tree, extending a little beyond the line of the hole. It is always advisable to mulch your evergreens in the Fall, especially those newly planted.
